

DEPARTMENT OF PUBLIC WORKS
Michael Fowler, P.E., Director

N14-127

NOTICE

FROM: Michael A. Fowler, P.E., Director of Public Works
DATE: August 1, 2014
SUBJECT: Rockingham Road Construction – Week of August 4, 2014

Work continues on Rockingham Road between Bedard Avenue and Webster's Corner. Rockingham Road will be restricted to one lane of traffic in the construction zone. In addition, a second crew will be installing water main along Bypass 28.

For the next few weeks, northbound Route 28 motorists seeking to use Rockingham Road may experience more significant delays Monday – Friday 7am to 5pm. Traffic may be queued in the left turn lane until there is ample capacity so as to not block the signalized intersection at Route 28/Rockingham Road/Island Pond Road. Motorists heading northbound on Route 28 are encouraged to use Route 28 Bypass as an alternate route to Route 102 west.

Work Completed Last Week –

Sewer Main Installation Bypass 28 and crossings toward Webster's Corner
Sewer Main Installation Rockingham Road eastbound toward Webster's Corner
Grading and Paving of Rockingham Road between Winter Hill Road and Bedard Avenue

Work for upcoming week –

Water main installation on Rockingham Road working east toward the Webster's Corner intersection.
Water main installation on Bypass 28 begins, working south from Humphrey Road.

Please contact the Department of Public Works office at 432-6144 if there are any questions or concerns.
