Town of Derry, NH

Office of the Finance Department

14 Manning Street Derry, NH 03038-3208 (603) 432-6103

December 11, 2015

To the Honorable members of the Derry Town Council, the Derry Town Administrator and the Citizens of the TOWN OF DERRY, NEW HAMPSHIRE:

The Comprehensive Annual Financial Report of the Town of Derry, New Hampshire for the fiscal year ended June 30, 2015 is hereby submitted. Responsibility for the accuracy of the data, as well as the completeness and fairness of the presentation, including all disclosures, rests with management. To the best of our knowledge and belief the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Town of Derry, New Hampshire. All disclosures which are necessary to enable the reader to gain an understanding of the Town of Derry, New Hampshire's financial activities have been included. No other organizations or component units are included in the Town's financial reporting entity.

The government provides a full range of services. These services include police and fire emergency medical service and protection, sanitation services, the maintenance and construction of highways, streets, and related infrastructure, recreational activities, libraries, community access Cable TV, general welfare assistance, maintenance of land use records, raising and collection of taxes, community and economic development, health and code enforcement activities, land conservation and maintenance of vital records. In addition to general government activities the governing body exercises, or has the ability to exercise, oversight of the Water and Wastewater departments, and they are included in the reporting entity.

Governmental Structure, Local Economic Condition and Outlook

The Town of Derry, New Hampshire, is a municipal corporation governed by an elected seven-member Town Council. The government has operated under a Town Charter form of government, in compliance with New Hampshire statute RSA 49-D, since 1993. Policy-making and legislative authority are vested in the governing council and the chief administrative officer is the Town Administrator. The governing Town Council is responsible, among other things, for adopting the budget, passing ordinances, appointing committees and hiring the Town Administrator. The Town Administrator is responsible for

carrying out the policies of the government, appointing the heads of the Town's departments and for general supervision of all Town operations. Town Council members are elected to three-year staggered terms with two members elected every year, with the exception of three members being elected every third year. Four of the members are elected from within their respective districts; the remaining three are elected at large.

Incorporated in 1827, the Town of Derry is located in the southeastern part of the state and ranks as the fourth largest municipality in New Hampshire despite a population decrease of 4.0% over the past decade. The Town has a land area of 36.30 square miles and an estimated 2014 population of 33,211, a 0.7% increase over the prior year. The peak estimated population over the last ten years was 34,710 in 2004. The decline in school population for grades 1-12 was 1%, following a 2.6% decline the previous year. School enrollment has been declining for eight straight years, with a reduction of 9.3% over that period. Overall, the school population remained fairly flat in 2009 due to the initial year of kindergarten being provided. This general decline in school population data is similar to statewide statistics that portray a declining enrollment in New Hampshire. The Town of Derry, New Hampshire and its two public libraries employed 235 full-time permanent employees and 25 part-time employees as of June 30, 2014-5.

The Town performs cycled assessing inspections of one-fifth of all residential properties each year so that in a five-year period all these properties have been reviewed to ensure that each property record card contains correct assessing data. Following completion of the last full revaluation in 2006, the Town Council, acting as the Board of Assessors, reinstituted the cycled inspection process as well as authorized assessment updates (indexing) beginning in 2008. This indexing by the Town in conjunction with the cycled inspection process is designed to keep assessed values tracking more closely with existing market values and providing equitable assessments among property owners. In 2009 a full valuation update was completed that reflected a real estate market that continued to be depressed. This full valuation resulted in a net reduction of 6.6% in assessed valuation compared with 2008.

In 2010, the Town continued its cycled inspection program and review of completed building permits as well as a review of all residential and commercial condominium complexes, including all condex properties. Appropriate valuation adjustments were made resulting in a slight decline in 2010 of 0.1% from 2009, the third straight year of decline in the Town's valuation. In 2011, the Assessing division completed a Town-wide cycled inspection program for all Manufactured Housing, with the result that the assessments declined by less than 1% as a result of new and/or corrected data. In addition, in 2011 all assessments of Utility property were reviewed Town-wide. This Utility property review was completed since telephone property, previously exempted by the New Hampshire Legislature, became taxable for real estate taxes at the local level and were assessed beginning in 2011.

In the fall of 2011 Assessing completed an operational and fiscal review of its operations for the Town Council. Changes recommended in that review were accepted by the Town Council, leading to operational improvements that lowered overall costs while maintaining the Town's goal to keep overall assessments as close to 100% of market value as possible. The NH Department of Revenue Administration (DRA) determined that the Town's 2011

equalized valuation was 105.9% of market value. As anticipated, a full reassessment update was done for 2012 that brought assessments to 99% of market value. This assessment level reflected the fact that there continued to be some decline in the market value of properties. No general assessment update was conducted for 2013 valuation, though a reassessment update was done in 2014. DRA has determined that the Town's equalization ratio for 2014 was 97.8%. The present assessing plan is to do cycled inspections every year and to do assessment updates every other year.

Economic Condition and Outlook

One indicator of economic condition can be found in the number of building permits issued. New residential permits decreased 23% in FY 2015 to 26, compared to 43 in FY 2014. The average construction value of each residential unit was down slightly from the previous year due to the impact of the construction of the first multi-family units since 2010. Permits for the past five years remain well below the FY 2008 level of 80 that included 33 permits for multi-family units. The number of addition and remodeling permits decreased from 245 in FY 2014 to 235 in FY 2015. Permits for additions and remodeling had been fairly consistent over the last four fiscal years, ranging from a low of 235 to a high of 305. For the period January 2014 to June 2015, 65 multi-family units were approved by the Planning Board, most of which are either complete or under construction. Additionally, 141 over 55+ housing units have been approved and are nearing completion. For the first four months of FY 2016, 7 residential building permits were issued, compared to 8 for the first four months of FY 2015. Based on preliminary information from developers, it is expected there will be an increase in permit activity during the fiscal year. Due to this increased activity, we anticipate that the level of permits issued will exceed the level experienced in FY 2015. The Town is optimistic about this improvement in building permit activity and expects increased activity. Overall these trends continue to reflect general improvement in the housing market, both locally and nationally.

| Residential Units | 2012 | 2013 | 2014 | 2015 |
|-------------------|--------|--------|--------|--------|
| Permits | 19 | 37 | 43 | 26 |
| Total Value | \$2.7M | \$6.0M | \$6.9M | \$3.8M |
| Average Value | \$142K | \$163K | \$160K | \$146K |

Local area unemployment statistics showed an improvement in Town unemployment rate from June 2014 to June 2015. In June 2015, the unemployment rate was 4.3% with 1,000 unemployed, versus June 2014 when the comparable statistics were 4.9% and 1,213. Derry's June 2015 unemployment rate is higher than the 4.0% rate for southern New Hampshire communities and the overall State rate of 3.5%. The unemployment rate in Derry is stronger than the 5.3% national level. Southern New Hampshire and state-wide rates are healthier than the national level. The employment situation state-wide improved slightly during July – August 2015, from 3.5% to 3.3%, while Derry's unemployment rate improved during that two – month period from 4.3% to 4.0%. The economic outlook for Derry remains generally consistent with the southern New Hampshire economy, while the Town lags behind the overall State employment situation, continuing to be impacted by the state of the national economy.

Major Initiatives

For the Year

The Town continues to utilize the recently updated Master Plan and Open Space Plan, as well as a Source Water Protection Plan that was developed through a joint effort of the Planning Department, the Public Works Department, the Conservation Commission, the Southern NH Planning Commission, and the NH Department of Environmental Services (NHDES).

The Downtown Committee has continued to meet in 2015 and will work with the new Town Administrator to further the revitalization of the downtown. The Town Council would like to see the vacant town-owned properties developed in the downtown. The Town Council also created an Economic Development Committee to work on this project and establish economic development goals for the future. To that end, the Town Council had asked the Planning Board to review the zoning and the permitted uses to ensure the best and highest use of the properties in that zoning district. This past year the Planning Board and Planning Department amended the zoning in the Downtown Central Business District to accomplish this goal. The Town continues to work with the Downtown Committee, the Greater Derry Arts Council (in its management of the Opera House within the Adams Memorial Building), and the Greater Derry/Londonderry Chamber of Commerce. The Town Council appropriated \$150,000 to repair the roof and perform renovations to the Opera House enabling the second floor balcony to re-open and thus expand the seating capacity. The Greater Derry Arts Council also obtained a \$25,000 grant to paint the interior of the building. A green, open space in the center of the downtown now houses the spring/fall Farmer's Market. Plans have been approved for conversion of that site into a multi-story commercial/ residential building once the economy improves. While some storefront vacancies exist, they provide a unique opportunity for development into successful businesses with great downtown exposure. New businesses which opened in 2015 in the downtown include a coffee shop which will be moving to a larger space due its growth to another Downtown storefront, and a major renovation and overall façade improvement will occur at the Cumberland Farms store in the Downtown which will drastically change the appearance of a key Downtown business block. Several downtown restaurants are seeing an increase in business and are now open for lunch. Two existing restaurants are now serving lunch, in addition to dinner. Exterior renovations are also occurring in two vacant storefronts. A boarded-up building which had been vacant for over twenty years will finally be torn down during the summer of 2015 and remove a major eyesore in the Downtown. There is new, exciting energy happening in the Downtown.

The existing Enterprise Revitalization Zone serves as a tool for economic development to assist with some "property tax leveling" during the first five years for new businesses opening in the zoned areas, though to-date there have been no applications submitted. The zone covers the Route 28 Corridor Tax Increment Financing (TIF) District (recently expanded by the State of New Hampshire to include more of the TIF District area), the Central Business District, and the Route 28 area heading south to the Windham town line (see later discussion regarding the expansion of sewer and water in this area).

Pinkerton Academy installed new, outdoor lighting at the football field which now allows the school to hold Friday night football games. This expands opportunities for merchants in Town who benefit from the increased crowds. The New Hampshire Symphony Orchestra this past year announced that the Stockbridge Theater at Pinkerton Academy will be their permanent home moving from Manchester to Derry.

The completion of the road improvements in the Route 28 Corridor TIF District has driven economic development in that area. Activity occurring within the TIF District during FY 2015 includes:

- The former Walmart property was acquired and partially occupied by Ocean State Job Lots. The remainder of the building will be occupied by Monkey Sports and an ALDI supermarket. Both retailers are unique. The Derry location will be the second New Hampshire location for ALDI and will be the sixth location worldwide for Monkey Sports. Monkey Sports is now open and ALDI expects to open by the end of the year (December 2015).
- The Town successfully marketed the site previously occupied by Pinkerton Tavern. An Aroma Joe's franchise was approved by the Planning Board and opened during the spring of 2015.
- Creative Chef Kitchens opened its facility a year ago. This first-of-its-kind business in the area allows aspiring food entrepreneurs to get a business up and running, assisting with everything from licensing to packaging and marketing. Many of the businesses encourage "buying local" by selling their wares at the local Farmer's Market. The business continues to thrive and expand.
- Construction was completed on a 2-story, 10,000 square foot medical building, consolidating the operations center for a 3-town medical office practice. The building is now open.
- Kelsen Brewing, one of the two breweries locating in Derry, has had tremendous success with award winning ales; they are currently bottling and selling to local supermarkets and specialty retail shops as well as local restaurants. An additional brewery opened this past year, Rockingham Brewery Company, and is doing well.

The addition of retail uses in the area of the Walmart Super Store has continued to pique interest in development of open land within the TIF District, as well as the upgrading of existing space. In particular the parcels located on Ashleigh Drive next to the new Walmart Super Store have generated interest based on marketing by a commercial real estate broker. A self- storage facility is currently under construction in this area and is scheduled to open in mid-2016. There is also renewed interest in the site of the former Sanmina manufacturing site in the heart of the TIF District. Derry Meadows Shoppes is now owned by a new entity and has plans to update the plaza. New development on Ashleigh Drive is proposed to go before the Planning Board beginning in the summer of 2015.

During the year, the Town continued its participation in the Robert Frost/Old Stage Coach Scenic Byway. The New Hampshire Scenic and Cultural Byways Council designated the Byway in May of 2014. The Robert Frost/Old Stage Coach Scenic Byway is an extension of an existing Byway that starts in Atkinson and will continue through the towns of Hampstead, Chester, Auburn, and Derry. The Byway route is highly scenic, leading visitors through New England colonial villages, rolling farmland, working orchards, and picturesque vistas. The route provides visitors access to recreational hiking and biking trails, seasonal festivals, and year round museums, restaurants and town centers. Establishment of the Byway will advance tourism and economic development along the Byway Corridor.

For the Future

The focus for Town Council and Town staff going forward continues to be active pursuit of further economic development. This includes:

- 1. Creation of a Downtown redevelopment plan for vacant Town-owned property located off of Broadway in the Downtown business area.
- 2. Working to expand and broaden the base of commercial and industrial property to lessen the tax burden on single-family homeowners and to provide new jobs to lessen the unemployment rate.
- 3. Continuing development and redevelopment in the Route 28 Corridor TIF District.
- 4. Extending water and sewer to the southern end of Route 28, heading towards Windham, so as to better develop that area commercially and industrially following a build out of the Route 28 Corridor TIF District. Construction of the first phase of this project began in fall of 2013 and is expected to be completed in the fall of 2015.
- 5. Preservation and acquisition of prime open space continues to be a goal.
- 6. Mitigation of the impacts expected from the planned Interstate 93 widening and possible development of an Exit 4-A which is expected to coincide with the widening of Interstate 93 from Exit 3 North to its intersection with I-293. The Town Council, as well as the Londonderry Town Council, supports the NH DOT taking the lead on the project and will look to the State to seek state and federal funding to pay for the project.
- 7. Town staff and boards continue to review possible zoning amendments. The intent is to increase the available commercial/industrial acreage thereby reducing zones where residential uses are permitted. The Planning Board and Planning staff refined permitted commercial/retail uses and forwarded the suggested changes to Town Council late in 2014 that were subsequently approved in the spring of 2015.
- 8. Fire, Code Enforcement, and Planning Departments continue development of a Property Maintenance Code Ordinance. The Property Maintenance Ordinance was approved and adopted by the Town Council in early 2015 and a Committee was set up to review distressed properties and began legal and enforcement actions.
- 9. The Planning Board continues to meet annually with the Derry Town Council to review goals for the upcoming fiscal year. Topics discussed during the 2015 meeting included the Town Council's vision for the Downtown and for Route 28 South, as well as ongoing zoning amendments. Town Council has asked the Planning Board to look at the zoning restrictions in the multi-family housing districts. As a result of these meetings the Planning Board approved and the Town Council adopted

revisions to multi-family zoning which will significantly reduce the density for this type of housing and thus help alleviate some of the burden on Town services.

While the infrastructure improvements to support commercial and industrial development in the Route 28 Corridor TIF District have been completed, contributions from all future projects and developers towards these infrastructure improvements will continue to be sought to support the coverage of the debt service on the TIF bond. A vacant 12-acre site, along with other undeveloped/underutilized properties within the TIF District, are prime locations for development since they are fully serviced by municipal water and sewer and have an improved roadway infrastructure.

Phase two of the water and sewer expansion in the Route 28 South area of Town was completed in the summer of 2015, in conjunction with the reconstruction of Rockingham Road. Expansion will enhance the opportunity for commercial and industrial development in this area due to the availability of water and sewer service. This expansion has extended the existing water and sewer service easterly on Rockingham Road to Route 28. From that point on Route 28, water will run north to connect with existing water infrastructure at Humphrey Road, and water and sewer will run south to Berry Road. The water booster station part of this project, which will service the area south of Island Pond Road is expected to be completed in the fall of 2015. Future phases of the expansion are designed to ultimately take this service further south from Berry Road to the Windham town line. The Planning Board has held public hearings to change zoning in this area to General Commercial IV. The Planning Board and Town Council approved and adopted these amendments which will allow for expanded commercial uses as well as re-zoned additional parcels from residential to commercial with the goal of expanding the tax base as well as job creation and expansion of existing businesses in this area of Town now that the Town water and sewer is available.

The recently constructed intersection signalization and added turning lanes at Route 28/ Kilrea Road improves safe travel in this area of Route 28 South. This project is anticipated to be completed by November of 2015.

The Town Council has adopted the New Hampshire *E911* house numbering mapping program. This adoption allows the state to initiate a mapping of the Town for use in New Hampshire's 911 system. The Town is in a "community queue" behind Manchester, Dover, and some other smaller communities. It is anticipated that Derry will likely see mapping begin by late 2015. Upon completion of the mapping, NH 911 call dispatchers will be better able to direct emergency responders to the location of an incident. The State will also provide the Town with a report identifying areas of concern that may impact the timely dispatch of services to particular locations. The goal of this effort is to enhance the Town's overall responsiveness to emergency situations.

The Town sees sign of a slowly improving economy, evidenced by ongoing discussions with retailers and other businesses that are considering or have initiated construction of new facilities, expansion of existing facilities, and reopening of closed facilities, including:

• Occupation of a number of vacant food establishments by other food venues;

- Within the Central Business District, redevelopment plans continue to evolve for a former manufacturing facility on Crystal Avenue to be converted into retail space;
- Commencement of construction began in FY 2015 for the addition of a golf driving range to an existing ice cream shop on Ryan's Hill on Route 28 South. An adjacent restaurant that had been vacant for one and a half years will reopen under new management, offering a sports pub menu. Further south from that location, construction has also started on the first few units of a 70,000 total SF self-storage facility near the Windham town line. Construction of this type is an indication of interest in further expansion of the Route 28 South area of Town for future commercial and industrial activity. Approval by the Planning Board in the spring of 2015 also included the approval of an additional 44,000 SF self-storage facility on Windham Road as well as a mixed-use retail plaza of 34,000 SF on Route 111 near the Atkinson town line. Finally a new education technology company, Intelitek, relocated from Manchester to Derry on Tsienneto Road.

In FY 2015, 25 single-family residential building lots and 65 multi-family and townhouse units were approved by the Planning Board. Despite the current economic situation, the Town remains excited about its potential growth and is poised for commercial and industrial development in 2015 and beyond. The Planning Board has also saw an increase in new multi-family/townhouse projects in this past year.

The Town's involvement with and facilitation of the previously mentioned commercial development and related infrastructure activity during continuing difficult economic times foretells that healthy economic development continues and that the Town should be poised for significant activity once the economy recovers.

The Town continues to develop and nurture strong alliances with the Greater Derry/ Londonderry Chamber of Commerce, the Derry Housing & Redevelopment Authority, Rockingham Economic Development Corporation, the Southern New Hampshire Planning Commission, the Derry Cooperative School District, and the Downtown Committee. These alliances will contribute to improving the quality of life in Derry and its future social and economic growth. Efforts continue towards making Derry a "destination community", as well as better balancing the tax burden.

Financial Information

The Derry Town Council is responsible for establishing and maintaining an internal control structure (NH RSA 41:9) designed to ensure that the assets of the government are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management. This internal control structure also includes day-to-day procedures that Town departments must follow in managing their respective areas of responsibility in their handling of receipts and purchase of goods and services.

As a recipient of federal, state, and local financial assistance the government is also responsible for ensuring that an adequate internal control structure is in place to ensure document compliance with applicable laws and regulations related to programs. The internal control structure is subject to periodic evaluation by management and the internal audit staff of the government. Prior audits by the Federal Emergency Management Agency (FEMA) and NH Department of Health and Human Services have confirmed the excellent controls and management that the Town has in place.

As a part of the government's audit, tests were made of the government's internal control structure. Although this testing was not sufficient to support an opinion on the government's internal control system, the audit for the year ended June 30, 2015 disclosed no deficiencies in internal control that were considered to be material weaknesses.

In addition the government maintains extensive budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the government's Council. Activities of the General Fund, the Cable Television Special Revenue Fund, and Proprietary Funds are included in the annual appropriated budget. Project-length budgets are prepared for Capital Projects Funds and operating grants in Special Revenue Funds. The government also maintains an encumbrance accounting system as one method of maintaining budgetary control. State law requires that no expenditures be made for any purpose unless that amount was appropriated for that purpose by the Legislative body (NH RSA 32:8).

The Management Discussion and Analysis that precedes the financial statements provides the reader of this report with an objective and easily readable analysis of the Town's financial activities based on currently known information and conditions. As demonstrated by the statements and schedules in the financial and statistical sections of this report, the government continues to meet its responsibility for sound financial management. Further narrative information is set forth below for Fund Balance and Debt Management.

Fund Balance & Debt Management

Fund Balance

The New Hampshire Department of Revenue Administration (DRA) supports the range recommended by the Government Finance Officers Association of the United States and Canada (GFOA) of 8% - 17% regarding retention of a percentage of total appropriations as unassigned fund balance. In NH, the calculation of regular general fund operating expenditures is the sum of the municipality's general fund operating appropriations, the education tax amount, the local school net tax commitment, and the county appropriation. Management's recommendation is to maintain a fund balance of at least 12.5%.

In June 2013, the Town Council unanimously adopted a Fund Balance Policy. This policy sets forth the categories of fund balance in accordance with GASB 54 and delineates the spending prioritizations of them. The policy also sets forth that annually, following completion of the annual financial audit, the Finance Department will calculate the percentage of Unassigned Fund Balance for that fiscal year. If the level of Unassigned Fund Balance exceeds the mid-point of the GFOA recommended range plus one half a percent (13%),

without action of the Town Council, the surplus shall be transferred to capital reserve funds for Fire, Information Technology, Police, and Public Works for the purpose of funding future capital improvements. The allocation to each fund is based on the percentage of each area in the Town's adopted six-year Capital Improvement Plan. In accordance with the annual reconciliation provision of the Policy, \$2,030,185 was transferred at June 30, 2015 from unassigned fund balance to committed fund balance. Thus, the Town of Derry's unassigned general fund balance at June 30, 2015 equals 13% of total appropriations, including school and county. The unassigned fund balance remains strong and provides increased flexibility for all Town operations.

Debt Management

While the Town of Derry does not have a formal debt management policy, its practice related to the issuance of new debt is based on restraint and conservatism, generally looking to its other resources (cash, fund balance, and available grants) before entering the financial markets to sell a long-term debt issue. The Town utilizes capital leases for the replacement, upgrading or addition of vehicles, trucks and major equipment. The Town presently has no plans to issue additional bonds in the foreseeable future.

Under current state statutes, the government's general obligation bonded debt issuance is subject to a local limitation based on a percentage of the Town's State of New Hampshire equalized assessed valuation. The Town's general fund is allowed to have as much as \$84.2 million of debt issued or authorized. As shown on page 127 of the Statistical Section of this report, at June 30, 2015 only \$8.8 million of debt was applicable to this limitation, 10.48% of the allowed amount. Similarly with respect to the Town's Water Fund, \$280.8 million is allowed by Statute, while at June 30, 2015, \$2.3 million (0.82%) was outstanding. The Wastewater Fund, Landfill Closure and TIF District debt have no limits. Based on an estimated population of 33,211, general government bonded debt per capita, excluding the TIF bonds, was \$196 per Derry resident at June 30, 2015, down from the \$220 reported in the prior year. The decrease is due to no new general obligation bonded debt being issued during FY 2015, as well as payment of principal on existing bonds.

The government currently has an Aa2 rating from Moody's Investors Service for bonds issued by the Town prior to FY 2013. In FY 2013, Standard & Poor's assigned a rating of AA to the \$4.75 million of general obligation bonds issued and the \$1.16 million of general obligation refunding bonds. In FY 2014, Standard & Poor's upgraded its rating to AA+ for the \$3,444,000 of general obligation issued in April for the expansion of the Town's water and sewer infrastructure. A rating of Bonds issued through the New Hampshire Municipal Bond Bank (NHMBB) have an Aa3 rating from Moody's, an AA rating from Standard & Poor's, and an AA- rating from Fitch.

Other Information

Independent Audit

The Town Charter requires an annual audit by an independent certified public accountant. The Town's Charter previously required that the audit firm be changed at least every five years. In September 2012, voters approved a Charter change that requires the Town to issue a request for proposal for auditing services every five years but does not require that a new auditor be selected. Following a Request for Proposals for Auditing Services in early 2015, the Nashua, NH office of Melanson Heath was selected to audit the Town for three years beginning with FY 2015, with an option at the Town's sole discretion for an additional two years.

The audit was designed to meet the requirements set forth in State statutes and was conducted in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The auditor's report on the basic financial statements, as well as combining and individual fund statements and schedules, is included in the financial section of this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) has once again awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Derry, NH for its comprehensive annual financial report for the year ended June 30, 2014. This was the sixteenth consecutive year that the Town has achieved this prestigious award. In order to be awarded a Certificate of Achievement a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report could not have been accomplished without the continued cooperative and dedicated effort of the entire staff of the Finance Department, as well as assistance from other Town departments in the gathering and review of information contained in this report.

INDEPENDENT AUDITORS' REPORT

To the Town Council Town of Derry, New Hampshire

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Derry, New Hampshire (the Town), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The Town's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of

significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Derry, New Hampshire as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, the Schedule of Funding Progress, the Schedule of Proportionate Share of Net Pension Liability, the Schedule of Contributions, and Schedule of Condition Assessment and Maintenance Costs be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual nonmajor fund financial statements and the budgetary comparison schedule are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2015 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Melanson Heath

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the financial performance of the Town of Derry, NH (the Town) is prepared by management to provide an overview of the Town's financial activities for the fiscal year ended June 30, 2015.

A Brief Discussion of the Basic Financial Statements

Using This Annual Report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements follow. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the Town as a Whole

One of the most important questions asked about the Town's finances is, "Is the Town as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the Town as a whole and about its activities in a way that helps answer this question. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's *net position* and its changes during the past year. You can think of the Town's net position—the difference between assets, liabilities and deferred transactions—as one way to measure the Town's financial health, or *financial* position. Over time, *increases* or *decreases* in the Town's net position is one indicator of whether its *financial* health is improving or deteriorating. You will need to consider other non-financial factors, however, such as changes in the Town's property tax base and the condition of the Town's roads, to assess the *overall health* of the Town.

In the Statement of Net Position and the Statement of Activities, we divide the Town into three kinds of activities:

Governmental activities – Most of the Town's basic services are reported here, including the police, fire, public works, finance, executive administration and library department activities. Property taxes, fees, and state and federal grants finance most of these activities.

Business activities – The Town charges a fee to customers to help it cover all or most of the cost of certain services it provides. The Town's water and sewer system activities are reported here.

Fiduciary activities – These are assets held by the Town in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds.

Reporting the Town's Most Significant Funds

Our analysis of the Town's major funds provides detailed information about the most significant funds – not the Town as a whole. Some funds are required to be established by State law and by bond covenants. However, the Town Council establishes many other funds to help it control and manage money for particular purposes (Capital Project Funds) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as Special Revenue Funds used to account for Public Safety or Health grant revenue).

The Town's two types of funds: Governmental and Proprietary, use different accounting approaches.

Governmental funds---Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements.

Proprietary funds---When the Town charges customers for the services it provides---whether to outside customers or to other units of the Town—these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities reported in the Statement of Net Position and the Statement of Activities. In fact, the Town's Enterprise funds (a component of proprietary funds) are the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows for proprietary funds.

The Town as Trustee

The Town is the trustee, or fiduciary, responsible for other assets that---because of a trust arrangement---can be used only for the trust beneficiaries. All of the Town's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. We exclude these activities from the Town's other financial state-

ments because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purpose.

Condensed Financial Statements

Financial Highlights

- Total government-wide net position assets and deferred outflows minus liabilities and deferred inflows for governmental and business activities decreased by \$35 million to \$123.6 million primarily due to the recognition of long term liabilities based on new accounting standards (GASB 68).
- The recognition of the pension liability has impacted the government wide unrestricted net position which now is reported as a deficit of \$14.4 million, of which \$18.6 million of the deficit is the unrestricted net position of governmental activities.
- The Total General Fund Balance increased by \$2.7 million to \$24.6 million.
- The unassigned General Fund Balance that is available for future appropriation increased by \$0.1 million to \$11.3 million. Committed General Fund balance increased by \$2.0 million to \$11.6 million. This will change at tax rate setting. Normally we don't issue the financials until after tax rate setting so we can assign the amount
- No new bonds were issued in 2015.
- The Town collected 97.27% of property taxes billed in the first year of the current year tax levy.

The Town as a Whole

Government-Wide Financial Analysis

The following analysis focuses on net position and changes in net position of the Town's governmental and business-type activities and separately considers the operations of both activities. The charts on the next few pages highlight current year and prior year comparisons of net position and changes in net position for Governmental activities, Business type activities (water and sewer operations), and totaled for each year.

Despite favorable operating performance, the Town's total net position of \$123.6 million decreased by \$35 million when compared to the prior year. The recognition of the Town's share of the New Hampshire Retirement System's net pension liability totaling \$33.9 million and the annual incremental increase of other post-employment benefit (OPEB) liability of \$1.1 million were the primary factors impacting the change. The net position at beginning of year was restated to include the net pension liability at June 30, 2014 on pages 36-37 and page 44.

*Unrestricted net position as of June 30, 2014 was not restated due to GASB 68, see Beginning Net Position Restatement footnote for more information.

Governmental Activities

Net position totals \$93.7 million for governmental activities and includes \$104.5 million of net investment in capital assets. Net investment in capital assets is not available for future spending. Net investment in capital assets is comprised of depreciated property value of roadways, land, easements, buildings, vehicles, equipment and software less the total amount of outstanding bonds or leases associated with these assets. Roadways, bridges and sidewalks comprise most of the asset value (\$82.6M) and provide a function to citizens of Derry, but would not be sold to fund future town obligations.

Restricted net position of \$7.7 million are subject to use restrictions that are external to local government control and these funds are not available to pay for general town obligations. Permanent endowments comprise the majority of restricted net position and are in the care of the Town's Trustees of the Trust Funds.

Unrestricted net position — the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements — changed from a \$14.2 million surplus at June 30, 2014 to a \$18.6 million deficit at the end of this year. The deficit arose primarily due to the recognition of a \$32.5 million net pension liability, representing an allocation of the New Hampshire Retirement System (NHRS) liability, in accordance with new governmental accounting standard (GASB 68), and the annual incremental increase of other post-employment benefits liability of \$1.1 million. State of NH has adopted legislation that has reduced pension benefits and the NHRS has in recent years, improved its funding mechanism to reduce their unfunded liability. Because the town officials do not have control to change or offset the pension system's long term liability, the Town's unrestricted net position will continue to remain a deficit, despite favorable operating performance of the Town, until the NHRS pension system develops adequate reserves to fund its obligations.

Business Type Activities

The net position of the water and sewer enterprises total \$30 million. The capital assets of \$33 million in water and sewer pipes, pump stations, and lagoon infrastructure capital assets, offset by related debt of \$7.2 million comprise the majority of the value in the net position of the business type activities. Net of related debt from bonds and capital leases, the \$25.8 million of investment in capital assets is not available to pay for future activities. The unrestricted net position totaling \$4.2 million is available for future spending.

The following chart reflects the changes in Net Position separately for governmental and business type activities and in total.

Town of Derry, NH Changes in Net Position (in thousands) For the years ended June 30,

Governmental Activities

Overall, total net position of governmental activities increased by \$2.2 million as cash and investments increased due to favorable current year operations; the retirement of bonds and leases with current revenues and acquisitions of capital assets by grants and donations.

The primary impact to the increase in long term liability for governmental activities is due to the \$32.5 million recognition of the Town's allocated share of the NHRS Pension system's liability, as previously mentioned on page 23 in the discussion of the major change in the overall unrestricted net position.

Lower bond and lease debt and a reduction in our compensated absence liability due to retirements and vacancies were other factors that offset the increases in long term debt.

Additionally, the phasing in of the Town's long term other post-employment benefit liability in accordance with Government Accounting Standards Board (GASB) statements 43 and 45, added \$1.1 million to long term liabilities. The net Other Post Employment Benefit (OPEB) obligation of \$6.7 million for governmental activities represents the sixth year of a thirty year phase-in of debt recognizing the retiree's effect on the group healthcare insurance premiums. A value is provided to retirees either through direct subsidy payments or an implicit subsidy gained through lower insurance premiums than what a retiree might otherwise pay if the retiree was in a different plan than the other employees. The effect of this liability is calculated for current employees and retirees who are eligible for this benefit upon retirement.

Since the Town continues to follow a "pay as we go" funding of these health care premiums, the impact of the accounting rule will continue to reduce the net position of the Town as the liability is incrementally recorded for the next twenty-four years. More information about this topic may be found in note 18 of the financial statements.

The Net Cost of Services chart shown below demonstrates the financial impact that was placed on the Town's taxpayers by each of these functions of government. The Town's investment in public safety - fire, ambulance and police services, represents 51% of the net cost of Derry's local government, 3% lower due to reduced personnel costs resulting from retirements and vacancies in positions.

Town of Derry, NH Net Cost of Services (in thousands) Governmental Activities For the years ended June 30,

Net cost of services for governmental activities increased by \$463 thousand, most significantly affected by higher economic development net cost of services. Due to increased participation and use of an economic development loan program available to eligible businesses located or moving to Derry that will enhance the Town economy.

Other factors affecting the higher net cost of services noted above is overall lower revenues of \$53 thousand and higher costs associated with highway and streets due to harsh winter conditions.

Business Type Activities

Favorable operating performance mitigated the decrease in the net position of business activities to \$30 million affected by the recognition of its \$1.4 million share of the NHRS net pension liability.

Analysis of Balances and Transactions of Individual Funds

Governmental Funds

Governmental fund reporting reflects short term inflows, outflows and remaining balances of spendable resources. Fund Balance includes restricted funds that are non-spendable or are subject to restrictions external to local government control and unrestricted fund balance that is available for future use. Of the \$36.6 million total fund balance for governmental funds, \$10.5 million is restricted and \$26 million is unrestricted (committed, assigned and unassigned).

The General Fund is the only major governmental fund of the Town and is the chief operating fund. Total general fund balance increased by \$2.7 million during 2015. Of the total \$24.6 million general fund balance, \$11.3 million was unassigned in the general fund on June 30, 2015.

In accordance with the Town's Fund Balance policy, the amount of unassigned fund balance is limited to 13% of the next year's tax commitment. Excess unassigned fund balance is committed to fund future capital improvements.

Comparing the percentage of total general fund expenditures to total and unassigned fund balance gives an indication of liquidity. The chart below reflects the changes in both unassigned and total fund balance.

| General Fund (GF) Fund Balance | | | | % of 2015 Property Tax |
|-----------------------------------|--------------|--------------|-------------|---------------------------|
| (in thousands) | 2015 | 2014 | Change | Commitment |
| Unassigned | \$ 11,319 | \$ 11,175 | \$ 144 | 13% |
| Total | \$ 24,622 | \$ 21,875 | \$ 2,747 | 28% |
| Property Tax Commitment | \$ 86,791 | \$ 85,961 | \$ 830 | |

The Town measures liquidity based on the property tax commitment of the ensuing year because the Town is responsible for raising funds by taxation for the school district and county that are not reported in the financial statements of the Town of Derry.

The effect of events discussed in the final budget to actual changes noted after this section contribute to the changes in general fund balance. The amount of revenue and other sources that exceed the expenditures in other sources add to unassigned general fund balance at year end. Any restrictions or commitments or assignments of funds are carved from unassigned fund balance to reflect restrictions due to external obligations or commitments made by the Town council or assignments made by management.

The changes in the total general fund balance were impacted by the following factors:

| Use of Fund Balance | \$ | (982) |
|--------------------------------|----|-------|
| Revenues greater than budgeted | | 2,519 |
| Expenses lower than budgeted | | 860 |
| Proceeds from capital assets | | |
| higher than budgeted | | 788 |
| Other | _ | (270) |
| Total Changes | \$ | 2,915 |

Capital Reserve funds within the general fund balance are highlighted below. With the exception of the Compensated Absences and Highway Winter Maintenance reserves, these reserves support funding of the Town's Capital Plan.

| Committed Reserves | <u>2015</u> | <u>2014</u> | Change |
|-----------------------------|-----------------|-----------------|----------------|
| Compensated Absences | \$ 3,618,892 | \$ 3,700,881 | \$ (81,989) |
| Derry Public Library | 43,682 | 13,602 | 30,080 |
| Emergency Management | 6,435 | 6,423 | 12 |
| Fire | 2,239,595 | 1,508,056 | 731,539 |
| Fire Facilities & Equipment | 199,085 | 264,616 | (65,531) |
| Highway Winter Maintenance | 118,097 | 106,346 | 11,751 |
| Information Technology | 215,074 | 248,239 | (33,165) |
| Land & Building Fund | 362,680 | 361,973 | 707 |
| Parks Facilities Fund | 107,479 | 107,240 | 239 |
| Police | 1,118,245 | 670,389 | 447,856 |
| Police Vehicles | 723 | 721 | 2 |
| Public Works | 2,493,593 | 1,795,292 | 698,301 |
| Taylor Library | 219,693 | 216,206 | 3,487 |

The use of these reserves have been an important and effective planning tool to save and prepare for major projects under the tax cap constraints on annual net appropriations.

The governmental funds financial statements can be found on pages 38 to 42.

Enterprise Fund Activities

Both the water and sewer divisions added 4 new service connections in 2015.

Charge for service revenue was \$33,000 higher in the water division and \$15,000 higher in the sewer division compared to the prior year. Full year of service from the prior year growth in water and sewer connections -21 and 9 respectively, was the primary contribution to the growth in revenue, as well and an increase in outdoor water usage. Lower one time fees associated with the service connection hookups offset the growth in consumption.

The Water division operating income of \$271,000 was 49% higher than the prior year because both personnel and utility costs were lower, by \$56,000 and \$48,000 respectively, despite a \$37,000 increase in repairs and maintenance costs.

The Sewer division operating income of \$161,000 was \$10,000 lower than the prior year due to higher repair and maintenance costs of \$64,000, higher capital asset depreciation of \$18,000, lower personnel costs of \$43,000, and higher operating revenues derived by charge for services and miscellaneous revenue.

The Water division's income before capital contributions and transfers improved by \$81,000 to \$265,000 – 10.3% of operating revenue, reflecting an improving trend.

The Sewer division's income before capital contributions and transfers decreased by \$30,000 to \$36,000 - 1.7% of operating revenue.

Billing rates have remained unchanged since June, 2013.

Analysis of Significant General Fund Budget Variations

A summary of General Fund budget to actual information may be found on page 42 of the financial statements.

Original to Revised Budget Changes

Within the Town's government structure, the Town Council is authorized to adopt supplemental appropriations from time to time outside of the normal budget process. This ability allows town government to more easily take advantage of opportunities that may arise during the year. The Town Council appropriates a "bottom line" budget for each department, which includes annual capital asset appropriations for each department.

The Council and Administrator, based on guidelines outlined in the Town Charter, may transfer appropriations to facilitate activities, providing flexibility to take advantage of opportunities that may arise in a timely manner.

Two supplemental appropriations were authorized by the governing body in 2015.

There were no budget transfers necessary from one department to another this fiscal year.

The original budget for taxation was modified at tax rate setting to account for \$3,163 less intergovernmental revenue from the State of NH and \$80,000 less miscellaneous revenue.

Final Budget to Actual Variances

The General Fund performance exceeded revenue projections by \$2.5 million and was affected by the following factors:

| Higher than budgeted sale of town property | \$ 788,000 |
|--|------------|
| Higher than budgeted tax interest & penalties | 765,000 |
| Higher than budgeted restricted revenue from the TIF Districts | 267,000 |
| Higher than budgeted revenue from a health insurance refund settlement | 259,000 |
| Lower than budgeted abatements | 259,000 |
| Higher than budgeted Motor Vehicle revenue | 148,000 |
| Higher than budgeted State Grant Reimbursement for Salt Truck | 142,000 |
| Higher than budgeted FEMA reimbursement for winter storm Juno | 100,000 |
| Higher than budgeted Workers Compensation insurance benefits | 47,000 |
| Higher than budgeted ambulance revenue | 39,000 |
| Lower than budgeted debt service | (37,000) |
| Higher than budgeted investment interest | 35,000 |

Overall, total general fund expenditures were \$860,000 less than budgeted.

The highlights of the differences are listed below:

| Lower than budgeted wages primarily in public safety | \$ 489,000 |
|---|------------|
| Lower than budgeted benefits surplus | 316,000 |
| Lower than budgeted roadway maintenance | 224,000 |
| Lower than budgeted equipment cost | 131,000 |
| Lower than budgeted legal expense | 85,000 |
| Lower than budgeted information technology and telephone | 71,000 |
| Lower than budgeted electicity | 37,000 |
| Lower than budgeted building improvements primarily to Derry Public Library | 36,000 |
| Higher than budgeted winter snow/ice removal | (171,000) |
| Higher than budgeted overtime primarily in public safety | (479,000) |

The Town's General Fund balance differs from the General Fund's budgetary fund balance reported in the budgetary comparison because of differences in revenue and expense recognition.

Town of Derry, NH Capital Assets as of June 30, (Net of Depreciation)

Governmental Activities

Capital Assets activity was marginal during the year. Additions to capital assets of \$2.9 million contributed to a net decrease of \$0.7 million in capital asset value after depreciation and asset disposals. Additions were funded with a combination of funding by donations, grants, debt and use of fund balance.

Assets disposed included fully depreciated vehicles and equipment with original cost values of \$298,200. There was also a write down of original cost values of \$1,827,500 for land and building (\$1,187,600 net value) related to the Courthouse which is expected to be transferred to the State of New Hampshire in FY2016.

Major acquisitions in 2015 are reported to the nearest thousand are noted below:

- \$1,068,000 Transfer Station Upgrade Project
- \$235,000 Transfer Station Double Ram Bailer
- \$177,000 2015 Ford F550 Salt Trucks(2)
- \$156,000 Adams Building Improvements
- \$156,000 2014 Prinorth Sidewalk Plow
- \$137,000 Cella Drive Road Acceptance
- \$121,000 Rockingham Road Improvements
- \$114,000 Deer Run Road Acceptance

Business Type Activities

Primary capital investment in 2015 is reported to the nearest thousand as noted below:

• \$1,293,000 – Rockingham Road/Route 28 Sewer Improvements

- \$1,163,000 Rockingham Road/Route 28 Water Improvements
- \$ 495,000 Rockingham Road/Route 28 Pump Station
- \$ 113,000 2014 Kubota Excavator

During FY2015, the continuation of water and sewer system expansion in the Rockingham Road/Route28 area was the major capital asset investment in business type activities. Having these services in this area of Derry, future commercial economic development will be possible. Expected completion of this project is 12/1/15.

Long-Term Debt

The increase in long-term debt in 2015 is due to the allocation of the NH Retirement system's pension expense on the Town. More information on this subject can be found in Note 19 of the financial statements and required supplementary schedules found on pages 83-84.

No new bond debt was issued in 2015.

In summary, after debt service payments, changes to our outstanding bond debt are reflected in the chart below:

Town of Derry, NH Outstanding Bond Debt As of June 30, (in thousands)

| | Governmental Activities | Business-type Activities | Totals | | | |
|--|----------------------------|-----------------------------|---------------------|--|--|--|
| | 2015 2014 | 2015 2014 | 2015 2014 | | | |
| General obligation bonds (Backed by the Town) | \$ 6,520 \$ 7,250 | \$ 6,230 \$ 6,679 | \$ 12,750 \$ 13,929 | | | |
| Tax increment financing bond | 4,840 4,920 | | 4,840 4,920 | | | |
| | \$ 11,360 \$ 12,170 | \$ 6,230 \$ 6,679 | \$ 17,590 \$ 18,849 | | | |
| Annual change (decrease) | (810) | (449) | (1,259) | | | |
| Percent change | -6.7% | -6.7% | -6.7% | | | |

On April 2, 2014, the Town of Derry was rated AA+ with a long-term stable outlook for credit worthiness.

Other obligations include accrued vacation pay, sick leave and other post-employment benefits (OPEB). More detailed information about the Town's OPEB liabilities is presented in Note 18 to the financial statements.

More information regarding capital leases and bonds and other long term debt is presented in Notes 11 and 12 to the financial statements.

Governmental Activities

In 2015, the Town entered into the following new leases for capital equipment:

- \$38,590 lease for a Kubota Tractor for the Parks division of Public Works
- \$35,000 lease for a 2015 Chevy 2500 Pickup Truck for the Building and Grounds division of Public Works
- \$16,595 lease for a multi-media logging recording system for the Police Department

Strategically, the vehicle replacement leasing program was designed to balance the debt service payments in order to stabilize the impact on the tax rate.

The State of New Hampshire limits general obligation debt to 3% of the assessed value of all taxable property within the Town's corporate limits. The Town's general obligation debt (issued - \$6.5 million and unissued - \$3.3 million) is well below the limit imposed. The Town's borrowing levels are well below Derry's permitted capacity.

Other information regarding Capital Leases and Long Term Bond Debt is presented in Notes 11 and 12 to the financial statements.

Business Type Activities

Water division bond debt of \$2.3 million and Sewer debt of \$3.9 million decreased from the prior year as a result of annual debt service payments. No new bonds were issued in 2015 for water or sewer divisions.

A new lease of \$113,163 for a Kubota Compactor Excavator was entered into in 2015 and the asset and associated debt is shared 50/50 by the water and sewer divisions.

Economic Factors

The unemployment rate in Derry at June 30, 2015 was 4.3%, a decrease from 4.9% at June 30, 2014. Derry residents continue to fare better than the national average of 5.3% but the rate remained higher than the overall state rate of 3.5%. The rate decreased to 4.0% during the July–August 2015 period. The state rate also dropped to 3.3% at the end of August 2015. Overall for the period May 2014-May 2015 all industry sectors in the state except for mining and logging, added employment, a further indication the economy continues to improve.

Contacting the Town's Financial Management

This financial report is designed to provide Derry's citizens, taxpayers, customers, and investors and creditors with a general overview of the Town's finances and to show the

Town's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact the new Chief Financial Officer or Controller in the Derry, NH Finance Department at (603) 432-6103. The Chief Financial Officer may be reached at <u>susanhickey@derrynh.org</u>. The Controller may be reached at <u>janicemobsby@derrynh.org</u>.

RECONCILIATION OF THE STATEMENT OF REVENUES EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2015

| Net changes in fund balances - Total governmental funds | \$ | 1,579,986 |
|---|-----|-------------|
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. | | |
| Capital asset purchases, net | | 2,882,942 |
| Depreciation | | (1,927,631) |
| Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the Statement of Activities, a gain or loss is reported for each disposal. This is the amount of the gain of disposed capital assets reduced by the actual proceeds received from the sale of capital assets. | | (1,653,877) |
| Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. | | (634,538) |
| Repayment of principal on bonds and capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. | | 1,188,031 |
| Capital lease issues are other financing sources in the governmental funds, but the capital lease issues increase long-term liabilities in the Statement of Net Position. | | (104,403) |
| In the Statement of Activities, interest is accrued on outstanding bonds and capital leases, whereas in governmental funds, an interest expenditure is reported when done. | | 14,044 |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. | | |
| Net pension liability, net of related deferred outflows & inflows | | 1,484,651 |
| Compensated absences | | 364,957 |
| Other post-employment benefits | | (996,756) |
| Estimated liability for landfill post-closure care costs | | 12,490 |
| Other | - | 10,850 |
| Change in net position of governmental activities | \$_ | 2,220,746 |

Notes to Financial Statements

1. <u>Summary of Significant Accounting Policies</u>

The accounting policies of the Town of Derry (the Town) conform to generally accepted accounting principles (GAAP) as applicable to governmental units. The following is a summary of the more significant policies:

A. <u>Reporting Entity</u>

The Government is a municipal corporation governed by an elected Town Council. As required by generally accepted accounting principles, these financial statements present the government and applicable component units for which the government is considered to be financially accountable. In fiscal year June 30, 2015, it was determined that no entities met the required GASB 14 (as amended) criteria of component units.

The Town of Derry, New Hampshire (the Town) was incorporated in 1827. In March of 1993, the voters of the Town adopted a Charter which established a Town Council and Town Administrator form of government. The Town Administrator is the Chief Administrative officer and is responsible for the administrative and financial affairs and for carrying out the policies enacted by the Town Council.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. However, internal eliminations do not include services provided to Town departments. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or seg-

ment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. <u>Measurement Focus</u>, Basis of Accounting, and Financial Statement Presentation

Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Government considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. All other revenue items are considered to be measurable and available when they are collected within the current period or soon enough thereafter to pay liabilities of the current fiscal period. All other revenue items are considered to be measurable and available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The Government reports the following major governmental fund:

• The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The government reports the following major proprietary funds:

- The *water fund* accounts for all revenues and expenses pertaining to the Town's water operations.
- The *sewer fund* accounts for all revenues and expenses pertaining to the Town's wastewater treatment and disposal sanitation operations.

The *private-purpose trust fund* is used to account for trust arrangements, other than those properly reported in the pension trust fund or permanent fund, under which principal and investment income exclusively benefit individuals, private organizations, or other governments.

The *agency funds* are established to account for fiduciary assets held by the Town in a custodial capacity as an agent on behalf of others.

D. Cash and Short-Term Investments

Cash balances from all funds, except those required to be segregated by law, are combined to form a consolidation of cash. Cash balances are invested to the extent available, and interest earnings are recognized in the General Fund. Certain special revenue, proprietary, and fiduciary funds segregate cash, and investment earnings become a part of those funds.

Deposits with financial institutions consist primarily of demand deposits, certificates of deposits, and savings accounts. A cash and investment pool is maintained that is available for use by all funds. Each fund's portion of this pool is reflected on the combined financial statements under the caption "cash and short-term investments". The interest earnings attributable to each fund type are included under investment income.

For purpose of the Statement of Cash Flows, the proprietary funds consider investments with original maturities of three months or less to be short-term investments.

E. Investments

State and local statutes place certain limitations on the nature of deposits and investments available. Deposits in any financial institution may not exceed certain levels within the financial institution. Non-fiduciary fund investments can be made in securities issued by or unconditionally guaranteed by the U.S. Government or agencies that have a maturity of one year or less from the date of purchase and repurchase agreements guaranteed by such securities with maturity dates of no more than 90 days from the date of purchase.

Investments for the Trust Funds consist of marketable securities, bonds and short-term money market investments. Investments are carried at market value.

F. Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due from/to other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans).

Advances between funds are offset by a fund balance reserve account in applicable governmental funds to indicate the portion not available for appropriation and not available as expendable financial resources.

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2015 are recorded as prepaid items. Prepaid items are recognized using the consumption method.

H. Inventories

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when purchased rather than when consumed. No significant inventory balances were on hand in governmental funds.

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, (for enterprise funds only) and intangibles are reported in the applicable

governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Government as assets with an initial individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The Town has elected to use the "modified approach" as defined by GASB Statement No. 34 for infrastructure reporting on its roadways and sidewalks. As a result, no accumulated depreciation or depreciation expense has been recorded for these assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital is depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|---------------------------------|--------------|
| Buildings and improvements | 10 - 50 |
| Equipment and vehicles | 5 - 10 |
| Infrastructure and other assets | 20 - 50 |
| Temporary easements | 1 - 5 |
| Software | 5 - 7 |

J. Compensated Absences

It is the Government's policy to permit employees to accumulate earned but unused absences. All vested absences pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

K. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position.

L. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

<u>Fund Balance</u> - Generally, fund balance represents the difference between the current assets and current liabilities. The Town reserves those portions of fund balance that are legally segregated for a specific future use or which do not represent available, spendable resources and therefore, are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund balance that is available for appropriation in future periods.

The Town's fund balance classification policies and procedures are as follows:

- 1) <u>Nonspendable funds</u> are either unspendable in the current form (for prepaid items and noncurrent receivables) or can never be spent (for parks and playgrounds, perpetual care, and other principal portions of permanent funds).
- 2) <u>Restricted funds</u> are used solely for the purpose in which the fund was established. In the case of special revenue funds, these funds are created by statute or otherwise have external constraints on how the funds can be expended.
- 3) <u>Committed funds</u> are reported and expended as a result of motions passed by the highest decision making authority in the government, the Town Council. Subsequent Town Council action is necessary to modify or rescind a fund balance commitment.
- 4) <u>Assigned funds</u> are used for specific purposes as established by management. These funds, which include encumbrances, have been assigned for specific goods and services ordered but not yet paid for. This account also includes fund balance voted to be used in the subsequent fiscal year. The Town follows a fund balance policy that permits management to assign fund balance amounts to a specific purpose as authorized by the Town Administrator, although fund balance to be applied against a subsequent year's budget is voted by Town Council.
- 5) <u>Unassigned funds</u> are available to be spent in future periods.

When an expenditure is incurred that would qualify for payment from multiple fund balance types, the Town uses the following order to liquidate liabilities: restricted, committed, assigned and unassigned.

<u>Net Position</u> - Net position represents the difference between assets/deferred outflows and liabilities/deferred inflows. Net investment in capital assets, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations

imposed on their use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining net position is reported as unrestricted.

M. Use of Estimates

The preparation of basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures for contingent assets and liabilities at the date of the basic financial statements, and the reported amounts of the revenues and expenditures/ expenses during the fiscal year. Actual results could vary from estimates that were used.

2. <u>Stewardship, Compliance, and Accountability</u>

A. Budgetary Information

General government revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. The budget represents departmental appropriations as authorized by the Town Charter with annual or special budgetary public hearings. By the same procedures additional amounts may be appropriated during the year in emergency cases. There were two supplemental budgetary appropriations voted during the year. The Town Council adopts its budget under regulations of the New Hampshire Department of Revenue Administration which differ somewhat from accounting principles generally accepted in the United States of America in that the focus is on the governmental unit as a whole rather than on the basis of fund types. Special Revenue Fund budgets for the cable television fund and Enterprise Fund budgets for the water and sewer departments are adopted. Capital Project Funds do not have adopted budgets.

Formal budgetary integration is employed as a management control device during the year for the General Fund.

At year-end, appropriation balances lapse, except for certain unexpended capital items and encumbrances which will be honored during the subsequent year.

B. Budgetary Basis

The general fund final appropriation appearing on the "Budget and Actual" page of the fund financial statements represents the final amended budget after all reserve fund transfers and supplemental appropriations.

C. Legal Level of Control

The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount for each budget for which data is presented without the approval of the governing body) is the total budgeted amount for each department.

D. Limitation of Budget Increases

During 2004, the Town amended Section 9.4 of the Derry Town Charter regarding the limitation of budget increases. In accordance with this amendment, the Town Council, in establishing a municipal budget, shall be allowed to assume an estimated property tax rate only in an amount equal to the equalized tax rate established during the prior fiscal year increased by a factor equal to the change in the National Consumer Price Index as published by the United States Department of Labor for the calendar year immediately preceding budget adoption. The exception to this limitation regarding the inclusion of principal and interest on municipal bonds remained unchanged. The factor is now based on the Northeast Region CPI as a result of the Charter Amendment approved by voters in March 2013.

E. <u>Budget/GAAP Reconciliation</u>

The budgetary data for the general fund is based upon accounting principles that differ from generally accepted accounting principles (GAAP). Therefore, in addition to the GAAP basis financial statements, the results of operations of the general fund are presented in accordance with budgetary accounting principles to provide a meaningful comparison with budgetary data.

The following is a summary of adjustments made to the actual revenues and other sources, and expenditures and other uses, to conform to the budgetary basis of accounting.

| | Revenues and Other | | xpenditures and Other |
|------------|-----------------------|--|---|
| <u>Fir</u> | nancing Sources | <u>Fir</u> | nancing Uses |
| \$ | 37,396,408 | \$ | 35,909,221 |
| - | 1,731,767 | | 304,192 |
| | 39,128,175 | | 36,213,413 |
| | - | | (404,404) |
| _ | - | | 125,492 |
| \$_ | 39,128,175 | \$ | 35,934,501 |
| | | and Other <u>Financing Sources</u> \$ 37,396,408 <u>1,731,767</u> 39,128,175 - - | and Other <u>Financing Sources</u> <u>Financing Sources</u> <u>Financing Sources</u> \$ 37,396,408 \$ <u>1,731,767</u> 39,128,175 - - |

3. <u>Cash and Investments</u>

A. Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the deposits may not be returned. The custodial credit risk for investments is the risk that, in the event of a failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. RSA 48:16 limits "deposit in any one bank shall not at any time exceed the sum of its paid-up capital and surplus, exception that a Town with a population in excess of 50,000 is authorized to deposit funds in a solvent bank in excess of the paid-up capital surplus of said bank."

As of June 30, 2015, the Town's bank balance of \$40,263,693 was insured or collateralized.

As of June 30, 2015, the Trust cash equivalent bank balance of \$4,174,143 was exposed to custodial credit risk as uninsured or uncollateralized.

Custodial Credit Risk - Investments. Custodial credit risk for investments is the risk that in the event of a failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of the investment or collateral securities that are in the possession of another party.

The Town's investment policy for governmental and business-type funds requires that deposits and investments be made in New Hampshire based financial institutions that are participants in one of the federal depository insurance programs. The Town limits its investments to demand deposits, money market accounts, certificates of deposit and repurchase agreements in accordance with New Hampshire State law (RSA 41:29) or the New Hampshire Public Deposit Investment Pool (NHPDIP), an external investment pool, in accordance with New Hampshire State law (RSA 197:23-a). Responsibility for the investments of the Trust Funds is with the Board of Trustees, who have employed professional banking assistance in accordance with New Hampshire State law (RSA 31:38a).

In accordance with the Town's investment policy, all security transactions, including collateral for repurchase agreements, shall be conducted on a "delivery vs. payment" basis. Securities will be held by a third party custodian, or trust department designated by the Treasurer and evidenced by safekeeping receipts. The collateral shall only consist of securities in which Towns may invest, as provided in New Hampshire State law (RSA 368:57).

The Town's policy for investments under the custodianship of the Trustees of Trust Funds follow the prudent investor guidelines which allow for various investments as long as these investments would be acquired by prudent persons of discretion and intelligence in investment matters, who are seeking a reasonable income and the preservation of capital. Upon advice of the contracted, qualified external money management company, the Town may invest in corporate stocks, bonds or other debentures subject to limitations in New Hampshire State law (RSA 386:57).

The Town is a voluntary participant in the New Hampshire Public Deposit Investment Pool (NHPDIP). The NHPDIP is not registered with the United States Securities and Exchange Commission as an investment company. The NHPDIP was created by state law and is administered by a public body of state, local and banking officials.

Investments in the NHPDIP are not investment securities and, as such, are not categorized by risk. The Town's exposure to derivatives is indirect through its participation in the NHPDIP. The Town's proportional share of these derivatives is not available. The fair value of the position in the investment pool is equal to the value of the pool shares.

The Town's investments of \$30,815,990 are exposed to custodial credit risk because the related securities are uninsured, unregistered and held by the Town's brokerage firm, which is also Counterparty to these securities. The risk is managed by securities being held in separately identifiable trust accounts.

B. Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law employs the prudent person rule whereby investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

The Town's investment policy addresses credit risk by limiting investments to the safest types of securities and diversifying the investment portfolio. With the exception of U.S. Treasury securities, U.S. Government agencies, and the New Hampshire Public Deposit Investment Pool, no more than 75% of the Town total investment portfolio will be invested in a single security type or with a single financial institution, unless 100% collateralized.

Presented below (in thousands) is the actual rating as of year-end for each investment of the Town (All federal agency securities have an implied credit rating of AAA.):

| , J | | Exempt | Rating as of Year-end | | | | | | | | |
|---------------------------|------------------|--------------------|-----------------------|--------------|----|---------------|----|-------------|----|------------|--------------|
| Investment Type | Fair | From Disclosure | | A a a | | A | | A-A3 | | Baa-Baa3 | Other |
| Investment Type | Value | Disclosure | | <u>Aaa</u> | | <u>Aa-Aa3</u> | | <u>A-A3</u> | | Daa-Daas | <u>Other</u> |
| Corporate bonds | \$ 2,179,353 | \$ - | \$ | 582,285 | \$ | 668,695 | \$ | 518,416 | \$ | 300,122 \$ | 109,835 |
| Municipal bonds | 328,332 | - | | 328,332 | | - | | - | | - | - |
| Corporate equities | 3,525,723 | 3,525,723 | | N/A | | N/A | | N/A | | N/A | N/A |
| Mutual funds | 1,076,200 | 1,076,200 | | N/A | | N/A | | N/A | | N/A | N/A |
| Certificates of deposit | 17,477,518 | 17,477,518 | | N/A | | N/A | | N/A | | N/A | N/A |
| U.S. Treasury notes | 1,487,304 | - | | 1,487,304 | | - | | - | | - | - |
| Federal agency securities | 4,741,560 | - | | 4,741,560 | | - | | - | | - | - |
| Total investments | \$ 30,815,990 | \$ 22,079,441 | \$ | 7,139,481 | \$ | 668,695 | \$ | 518,416 | \$ | 300,122 \$ | 109,835 |

C. <u>Concentration of Credit Risk</u>

The Town places no limit on the amount the Town may invest in any one issuer. There are no investments in any one issuer that represent 5% or more of total investments, except for Century Bank certificate of deposit in the amount of \$5,016,227 at June 30, 2015.

D. Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Town does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

It is the Town's policy to invest all funds, other than Trust Fund investments, in a manner which will provide safety of principal with a market rate of return while maintaining a sufficient level of liquidity to meet the daily cash flows of the Town. In order to maintain liquidity, investments of operating funds shall have maturities of one year or less. Certain long-term reserve funds such as capital projects may be invested in securities exceeding one year if the maturity of such investments is made to coincide with the expected use of the funds.

One of the ways that the Town manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time.

Not more than 5% of the Town's investment portfolio, other than Trust fund investments, is to be invested in securities with maturities greater than one year. The Town's investments are included in certificates of deposits.

Information about the sensitivity of the fair values of the Trust's debt related securities to market interest rate fluctuations is as follows:

| | | | Investment Maturities (in Years) | | | | | | |
|---------------------------|----|-----------|----------------------------------|----|------------|-----|-------------|-----|----------------|
| Investment Type | | Fair | Less | | 4 5 | | C 10 | | More |
| Investment Type | | Value | <u>Than 1</u> | | <u>1-5</u> | | <u>6-10</u> | | <u>Than 10</u> |
| Debt-related Securities: | | | | | | | | | |
| Corporate bonds | \$ | 2,179,353 | \$ 514,176 | \$ | 930,098 | \$ | 625,244 | \$ | 109,835 |
| Municipal bonds | | 328,332 | - | | - | | 328,332 | | - |
| U.S. Treasury notes | | 1,487,304 | 1,487,304 | | - | | - | | - |
| Federal agency securities | - | 4,741,560 | 2,465,611 | | 2,275,949 | _ | - | _ | - |
| Total | \$ | 8,736,549 | \$ 4,467,091 | \$ | 3,206,047 | \$_ | 953,576 | \$_ | 109,835 |

E. Foreign Currency Risk

Foreign currency risk is the risk that changes in foreign exchange rates will adversely affect the fair value of an investment. The Town does not have policies for foreign currency risk.

4. <u>Taxes Receivable</u>

The Town bills property taxes semi-annually, in May and November. Property tax revenues are recognized in the fiscal year for which taxes have been levied. Property taxes are due on July 1 and December 1. Delinquent accounts are charged 12% interest. In March of the next year, a lien is recorded on delinquent property at the Registry of Deeds. The Town, after annually reviewing delinquent accounts and making recommendations to the Town Council, records the asset at a value including all the delinquent accounts, recording costs and accrued interest. The accounts that are liened by the Town will be reclassified from property taxes receivable to unredeemed tax liens receivable. After this date, delinquent accounts will be charged interest at a rate of 18%. The Town annually budgets amounts (overlay for abatements) for property tax abatements and refunds.

Taxes receivable at June 30, 2015 consist of the following (in thousands):

| Real Estate 2015 | \$ | 5,056 |
|-----------------------------|----|-------|
| Tax Liens, net of allowance | - | 1,278 |
| Total | \$ | 6,334 |

Taxes Collected for Others

The Town collects property taxes for the State of New Hampshire, the Derry Cooperative School District and the County of Rockingham. Payments to the other taxing units are normally made throughout the year. The ultimate responsibility for the collection of taxes rests with the Town.

5. Allowance for Doubtful Accounts

The receivables reported in the accompanying financial statements reflect the following estimated allowances for doubtful accounts (in thousands):

| | <u>Governmenta</u> | | |
|---|--------------------|-------|--|
| Property taxes | \$ | 350 | |
| Ambulance and other accounts receivable | \$ | 1,077 | |
| Business-type accounts receivable | \$ | 9 | |

6. <u>Due From Other Governments</u>

This balance represents reimbursements requested from Federal and State agencies for expenditures incurred in fiscal 2015.

7. Interfund Fund Receivables/Payables

Although self-balancing funds are maintained, most transactions flow through the general fund. In order to obtain accountability for each fund, interfund receivable and payable accounts must be utilized. The following is an analysis of the June 30, 2015 balances in interfund receivable and payable accounts:

| Fund | Due From <u>)ther Funds</u> | Due To <u>Other Funds</u> | |
|--|--------------------------------|------------------------------|------------|
| Governmental Funds: | | | |
| Major Fund: | | | |
| General fund | \$ - | \$ | 9,818,038 |
| Nonmajor Funds: | | | |
| Special Revenue Funds: | | | |
| Derry Public Library | 95,680 | | - |
| Taylor Public Library | 130,487 | | - |
| Cable Television | 589,311 | | - |
| Conservation Commission | 764,519 | | - |
| Public Health | - | | 4,710 |
| Public Safety Grants | 49,147 | | - |
| Miscellaneous Grants Waste Tire Reclamation | 32,463 | | - |
| | - | | 24,106 |
| Transportation Improvement | - | | 154,519 |
| Rockingham Economic Development | | | 147 |
| Corporation | - | | 147 |
| Capital Project Funds: | | | |
| Bridge Improvements | 595,782 | | - |
| Transfer Station Facility | 2,984,235 | | - |
| Rockingham Rd Reconstruction | 53,628 | | - |
| Permanent Funds: | | | |
| General Cemetery Care | - | | 75,000 |
| Parks and Playgrounds | - | | 72,250 |
| Human Services | - | | 2,000 |
| Subtotal Nonmajor Funds | 5,295,252 | - | 332,732 |
| Total Governmental Funds | 5,295,252 | | 10,150,770 |

| Business-Type Activities: | | | |
|--------------------------------|----|------------|------------------|
| Water Fund | | 3,207,750 | - |
| Sewer Fund | , | 1,647,768 | - |
| Total Business-Type Activities | | 4,855,518 | - |
| Grand Total | \$ | 10,150,770 | \$ 10,150,770 |

The government reports interfund transfers between many of its funds. The sum of all transfers presented in the table agrees with the sum of interfund transfers presented in the governmental and proprietary fund financial statements. The following is an analysis of interfund transfers made in fiscal year 2015.

| Governmental Funds: | Transfers In | Tra | ansfers Out |
|---|--------------|-----|---------------------------|
| General Fund | 6 463,544 | \$ | 304,193 |
| Nonmajor Funds: Special Revenue Funds: | | | |
| Derry Public Library | 452 | | - |
| Public Safety Grants | 201 | | - |
| Miscellaneous Grants | 11,000 | | - |
| Waste Tire Reclamation | 80,456 | | - |
| Transportation Improvement | 4,565 | | - |
| Rockingham Economic Development Corporation | - | | 141 |
| Capital Project Funds: | | | |
| Route 28 TIF | - | | 124,670 |
| Permanent Funds: General Cemetery Care Parks and Playgrounds Libraries | - | | 58,650 72,250 2,334 |
| Human Services | | | 2,000 |
| Subtotal Nonmajor Funds | 96,674 | | 260,045 |
| Total Governmental Funds | 560,218 | | 564,238 |
| Business-Type Activities: | | | |
| Water Fund | 4,020 | | - |
| Total Business-Type Activities | 4,020 | | - |
| Grand Total | \$ 564,238 | \$ | 564,238 |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) use unrestricted revenues collected in the general fund to finance various programs and accounted for in other funds in accordance with budgetary authorizations.

8. <u>Capital Assets</u>

Capital asset activity for the year ended June 30, 2015 was as follows (in thousands):

| | | Beginning | | | | | | Ending |
|---|-----|----------------|----------|----------|----------|-----------|----------|----------------|
| | | Balance | <u> </u> | ncreases | <u>[</u> | Decreases | <u>i</u> | Balance |

| Total capital assets, net | \$_ | 29,774 | \$_ | 2,904 | \$_ | (502) | \$ | 32,176 |

Depreciation expense was charged to functions of the Town as follows (in thousands):

| Governmental Activities: | | |
|---|-----|-------|
| General government | \$ | 427 |
| Public safety | | 749 |
| Highway | | 362 |
| Health and welfare | | 5 |
| Sanitation | | 51 |
| Culture and recreation | _ | 334 |
| Total depreciation expense - governmental activities | \$_ | 1,928 |
| Business-Type Activities: | | |
| Water | \$ | 254 |
| Sewer | _ | 511 |
| Total depreciation expense - business-type activities | \$_ | 765 |

9. Deferred Outflows of Resources

Deferred outflows of resources represent the consumption of net assets by the Town that is applicable to future reporting periods. Deferred outflows of resources have a positive effect on net position, similar to assets.

Deferred outflows at June 30, 2015 represent the deferral of fiscal year 2015 contributions to the New Hampshire Retirement System as these contributions were made subsequent to the measurement date of the net pension liability, see retirement system footnote, Note 19.

10. <u>Accounts Payable and Accrued Expenditures/Expenses</u>

Accounts payable and accrued expenses represent 2015 expenditures paid after 2015.

11. Capital Lease Obligations

The Town is the lessee of certain equipment under capital and operating leases expiring in various years through 2019. Future minimum lease payments under the capital and operating leases consisted of the following as of June 30, 2015:

| | <u>G</u> | overnmental <u>Activities</u> | <u>B</u> | <u>usiness-Type</u> <u>Activities</u> |
|---|----------|----------------------------------|----------|--|
| 2016 | \$ | 305,694 | \$ | 23,624 |
| 2017 | | 163,430 | | 23,624 |
| 2018 | | 39,581 | | 23,624 |
| 2019 | | 18,668 | | 23,623 |
| Total minimum lease payments | | 527,373 | | 94,495 |
| Less amounts representing interest | | (17,488) | | (4,955) |
| Present Value of Minimum Lease Payments | \$ | 509,885 | \$ | 89,540 |

The following is an analysis for the leased assets included in capital assets at June 30, 2015:

| | Governmental <u>Activities</u> | Business-Type <u>Activities</u> |
|-------------------------------------|-----------------------------------|------------------------------------|
| Intangible | \$ 43,150 | \$- |
| Machinery, vehicles and equipment | 4,989,371 | 113,163 |
| Less: accumulated depreciation | (3,810,732) | (8,487) |
| Equipment under capital leases, net | \$ | \$104,676_ |

12. Long-Term Debt

A. Long-Term Debt Supporting Governmental Activities

General obligation bonds, issued by the Town for various municipal improvements, are approved by the voters and repaid with property taxes recorded in the General Fund. These bonds are required to be fully paid within 20 years from the date of issue and are backed by the full faith and credit of the Town. The Town's borrowing capacity is restrained by State law. Compensated absences are repaid from the funds that the costs relate to, mostly general fund, and also water and sewer funds.

B. General Obligation Bonds and Tax Increment Financing Bonds

The Town issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities.

The Town has pledged a portion of future tax increment financing (TIF) revenues to repay \$2,000,000 in tax increment bonds issued in April 2004 to finance the economic development of Ash Street Corporate Park. The bonds are payable solely from the tax increment financing taxes generated by businesses in the commercial/light industrial park.

The Town has pledged a portion of future tax increment financing (TIF) revenues to repay \$3,400,000 in tax increment bonds issued in November 2011 to finance the road reconstruction within the Route 28 Corridor. The bonds are payable solely from the tax increment financing taxes generated by businesses in the Route 28 district between the Londonderry town line and Tsienneto/Folsom Roads.

Amount

General obligation bonds currently outstanding are as follows:

| | | | | | Amount |
|--------------------------------------|----------------|------------------|-----------------|-----|-----------------------|
| | Serial | | | (| Dutstanding |
| | Maturities | Interest | Amount | | as of |
| Governmental Activities: | <u>Through</u> | <u>Rate(s) %</u> | Issued | | <u>6/30/15</u> |

E. Authorized Unissued Debt

Long-term debt authorizations which have not been issued or rescinded as of June 30, 2015 are as follows:

General obligation bonds:

| <u>Purpose</u> | <u>Amount</u> |
|----------------|-----------------|
| Exit 4A | \$ 3,246,583 |

13. Landfill Postclosure Care Costs

State and Federal laws and regulations require the Town to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The Town's landfill was closed during the year ended June 30, 1987. The remaining postclosure care costs are reported as a liability in the financial statements in each period based on landfill capacity used as of each balance sheet date.

The \$25,736 reported as landfill postclosure care liability at June 30, 2015 represents that cumulative amount reported to date based on the use of 100% of the estimated capacity of the landfill. This amount is based on what it would cost if all equipment, facilities, and services to monitor and maintain the landfill were acquired as of June 30, 2015. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

14. <u>Deferred Inflows of Resources</u>

Deferred inflows of resources are the acquisition of net assets by the Town that are applicable to future reporting periods. Deferred inflows of resources have a negative effect on net position, similar to liabilities.

The following is a summary of deferred inflow of resources balances as of June 30, 2015:

| | Entity-wid | de E | Basis | Fund Basis | | | | | | | | | |
|---|------------------|------|--------------|------------|--------------|-----|----------|-------------------|--------------|----|---------|--|--|
| | Governmental | В | usiness-type | | Governmen | tal | Funds | Proprietary Funds | | | | | |
| | Activities | | Activities | | General Fund | | Nonmajor | | <u>Water</u> | | Sewer | | |
| Taxes collected in advance | \$ 36,771,735 | \$ | - | \$ | 36,771,734 | \$ | - | \$ | - | \$ | - | | |
| Unavailable revenues, property | | | | | 4 4 9 9 9 7 | | 7 000 | | | | | | |
| taxes | - | | - | | 1,108,327 | | 7,892 | | - | | - | | |
| Unavailable revenues, loans | - | | - | | - | | 162,475 | | - | | - | | |
| Net difference between projected and actual pension investment | | | | | | | | | | | | | |
| earnings | 4,162,760 | | 178,949 | | - | | - | | 86,556 | | 92,393 | | |
| Changes in pension proportion | 1,234,249 | | 53,057 | | - | | - | | 25,663 | | 27,394 | | |
| Total deferred inflows | \$ 42,168,744 | \$ | 232,006 | \$ | 37,880,061 | \$ | 170,367 | \$ | 112,219 | \$ | 119,787 | | |

15. <u>Restricted Net Position</u>

The accompanying entity-wide financial statements report restricted net position when external constraints from grantors or contributors are placed on net position.

Permanent fund restricted net position are segregated between nonexpendable and expendable. The nonexpendable portion represents the original restricted principal contribution, and the expendable represents accumulated earnings which are available to be spent based on donor restrictions.

16. <u>Governmental Funds - Balances</u>

Fund balances are segregated to account for resources that are either not available for expenditure in the future or are legally set aside for a specific future use.

The following types of fund balances are reported at June 30, 2015:

<u>Nonspendable</u> - Represents amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. This fund balance classification includes general fund reserves for prepaid expenditures and nonmajor governmental fund reserves for the principal portion of permanent trust funds.

<u>Restricted</u> - Represents amounts that are restricted to specific purposes by constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation. This fund balance classification includes general fund encumbrances funded by bond issuances, various special revenue and capital project funds, and the income portion of permanent trust funds.

<u>Committed</u> - Represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town's highest level of decision-making authority. This fund balance classification includes general fund encumbrances for non-lapsing, special article appropriations approved at Town Meeting, capital reserve funds set aside by Town Meeting vote for future capital acquisitions and improvements (now reported as part of the general fund per GASB 54), and various special revenue and capital project funds. Subsequent Town Meeting action is necessary to modify or rescind a fund balance commitment.

<u>Assigned</u> - Represents amounts that are constrained by the Town's intent to use these resources for a specific purpose. This fund balance classification includes general fund encumbrances that have been established by various Town departments for the expenditure of current year budgetary financial resources upon vendor performance in the subsequent budgetary period, as authorized by the Town Administrator per the Fund Balance Policy.

<u>Unassigned</u> - Represents amounts that are available to be spent in future periods.

| | | | | Nonmajor | | Total | |
|--------------------------------|----|-------------|----|--------------|-----------|--------------|--|
| | | General | | Governmental | (| Governmental | |
| | | <u>Fund</u> | | <u>Funds</u> | | <u>Funds</u> | |
| Nonspendable | | | | | | | |
| Prepaid expenditures | \$ | 45,153 | \$ | 456 | \$ | 45,609 | |
| Property held for resale | | 523,055 | | - | | 523,055 | |
| Noncurrent receivable | | - | | 180,154 | | 180,154 | |
| Nonexpendable permanent funds: | | | | | | | |
| General cemetery care | | - | | 2,305,746 | | 2,305,746 | |
| Parks and playgrounds | | - | | 3,146,896 | | 3,146,896 | |
| All remaining | | - | _ | 158,881 | _ | 158,881 | |

| Compensated absences | 111,701 | - | 111,701 |
| Total Assigned | 1,007,253 | - | 1,007,253 |
| Unassigned | 11,319,369 | | 11,319,369 |
| Total Fund Balances | \$24,621,780 | \$11,988,956 | \$36,610,736 |

17. <u>Commitments and Contingencies</u>

<u>Outstanding Legal Issues</u> - There are several pending legal issues in which the Town is involved. The Town's management is of the opinion that the potential future settlement of such claims would not materially affect its financial statements taken as a whole.

<u>Grants</u> - Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial. <u>Abatements</u> – There are several cases pending before the NH Board of Tax and Land Appeals in regard to alleged discrepancies in property assessments. According to the Town's counsel, the probable outcome of these cannot be determined at this time, although the Town expects such amounts, if any, to be immaterial.

18. <u>Post-Employment Healthcare and Life Insurance Benefits</u>

Other Post-Employment Benefits

GASB Statement 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions, requires governments to account for other post-employment benefits (OPEB), primarily healthcare, on an accrual basis rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Activities when a future retiree earns their post-employment benefits, rather than when they use their postemployment benefit. To the extent that an entity does not fund their actuarially required contribution, a post-employment benefit liability is recognized on the Statement of Net Position over time.

A. Plan Description

In addition to providing the pension benefits described, the Town provides postemployment health care and life insurance benefits for retired employees through the Town's Single Employer Defined Benefit Plan. The benefits, benefit levels, employee contributions and employer contributions are governed by RSA 100-A:50. As of June 30, 2014, the actuarial valuation date, approximately 140 retirees and 166 active employees meet the eligibility requirements. The plan does not issue a separate financial report.

B. Benefits Provided

The Town offers medical, prescription drug, mental health/substance abuse and life insurance to retirees and their covered dependents. All active employees who retire from the Town and meet the eligibility criteria will receive these benefits.

C. Funding Policy

Retirees pay 100% of the premium in excess of the NHRS Subsidy, if any, with the following exceptions:

• For current Teamsters-Public Works, AFSCME-Staff Support and Professional, Administrative and Technical Employees (PATE) union contracts, as well as non-represented employees, the Town will pay for Medicomp III for retirees when they reach age 65, if the retiree has a minimum 10 years of service with the Town and is qualified to receive retirement benefits from the New Hampshire Retirement System.

Teamsters-Public Works employees hired after June 30, 2013 must work 20 years. Employees hired after July 1, 2010 shall be limited to the amount of the July 1, 2009 Medicomp III premium.

AFSCME-Staff Support - Employees hired after April 23, 2009 must work 20 years and be limited to the July 1, 2009 Medicomp III premium.

• The Town also provides for up to four years of long-term disability coverage for current Teamster-Public Works and PATE union contracts. For Teamsters disabled as of July 1, 2010, the coverage period will be five years.

Retirees pay 100% of life insurance premiums and 100% of their dependents' health insurance premiums.

D. Annual OPEB Costs and Net OPEB Obligation

The Town's fiscal 2015 annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost per year and amortize the unfunded actuarial liability over a period of thirty years. The following table shows the components of the Town's annual OPEB cost for the year ending June 30, 2015, the amount actually contributed to the plan, and the change in the Town's net OPEB obligation based on an actuarial valuation as of June 30, 2012.

| Annual Required Contribution (ARC) Interest on net OPEB obligation Adjustment to ARC | \$ | 1,244,915 281,672 (236,311) |
|--|----|-----------------------------------|
| Annual OPEB cost | | 1,290,276 |
| Contributions made | • | (234,953) |
| Increase in net OPEB obligation | | 1,055,323 |
| Net OPEB obligation - beginning of year | | 6,259,381 |
| Net OPEB obligation - end of year | \$ | 7,314,704 |

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation were as follows:

| Fiscal Year Ended | Annual OPEB Cost | Net OPEB Obligation | |
|-------------------|---------------------|------------------------|--------------|
| 2015 | \$ 1,290,276 | 18.2% | \$ 7,314,704 |
| 2014 | \$ 1,399,244 | 17.2% | \$ 6,259,381 |
| 2013 | \$ 1,307,786 | 17.2% | \$ 5,101,279 |
| 2012 | \$ 1,481,776 | 21.6% | \$ 3,981,488 |
| 2011 | \$ 1,382,055 | 19.2% | \$ 2,820,105 |
| 2010 | \$ 1,117,285 | 21.2% | \$ 1,704,070 |
| 2009 | \$ 1,041,450 | 20.9% | \$ 823,605 |

E. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2014, the date of the most recent actuarial valuation was as follows:

| Actuarial accrued liability (AAL) Actuarial value of plan assets | \$ | 15,349,044 - |
|---|-----|-----------------|
| • | ¢ | 15 240 044 |
| Unfunded actuarial accrued liability (UAAL) | Φ= | 15,349,044 |
| Funded ratio (actuarial value of plan assets/AAL) | = | 0.0% |
| Covered payroll (active plan members) | \$_ | 16,824,900 |
| UAAL as a percentage of covered payroll | _ | 91.2% |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amount and assumptions about the probability of occurrence of events far into the future. Examples included assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

F. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the plan as understood by the Town and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the Town and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2014 actuarial valuation the projected unit credit cost method was used. The actuarial value of assets was not determined as the Town has not advance funded its obligation. The actuarial assumptions included a 4.5% investment rate of return, inflation rate of 3.75%, and an initial annual healthcare cost trend rate of 8% which decreases to a 5% long-term rate for all healthcare benefits after six years. The amortization costs for the initial UAAL is a level percentage of payroll for a period of 30 years, on an open basis. This has been calculated assuming the amortization payment increases at a rate of 3.75%.

19. <u>Retirement System</u>

The Town follows the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, with respect to the State of New Hampshire Retirement System (NHRS).

A. Plan Description

Full-time employees participate in the New Hampshire Retirement System (NHRS), a cost sharing, multiple-employer defined benefit contributory pension plan and trust established in 1967 by RSA 100-A:2 and qualified as a tax-exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code. The plan is a contributory, defined benefit plan providing service, disability, death, and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters, and permanent police officers within the State of New Hampshire are eligible and required to participate in the system. Full-time employees of political subdivisions, including counties, municipalities, and school districts, are also eligible to participate as a group if the governing body of the political subdivision has elected participation.

The New Hampshire Retirement System, a Public Employees Retirement System (PERS), is divided into two membership groups. State or local employees and teachers belong to *Group I*. Police officers and firefighters belong to *Group II*. All assets are held in a single trust and are available to each group. Additional information is disclosed in the NHRS annual report publicly available from the New Hampshire Retirement System located at 54 Regional Drive, Concord, New Hampshire 03301-8507.

B. <u>Benefits Provided</u>

Group I members at age 60 or 65 (for members who commence service after July 1, 2011) qualify for a normal service retirement allowance based on years of creditable service and average final salary for the highest of either three or five years, depending on when their service commenced. The yearly pension amount is 1/60 or 1.667% of average final compensation (AFC), multiplied by years of creditable service. At age 65, the yearly pension amount is recalculated at 1/66 or 1.515% of AFC multiplied by years of creditable service.

Group II members who are age 60, or members who are at least age 45 with at least 20 years of creditable service, can receive a retirement allowance at a rate of 2.5% of AFC for each year of creditable service, not to exceed 40 years. Members commencing service on or after July 1, 2011 or members who have a nonvested status as of January 1, 2012 can receive a retirement allowance at age 52.5 with 25 years of service or age 60. The benefit shall be equal to 2% of AFC times creditable service up to 42.5 years. However, a member who commenced service on or after July 1, 2011 shall not receive a retirement allowance until attaining the age of 52.5, but may receive a reduced allowance

after age 50 if the member has at least 25 years of creditable service where the allowance shall be reduced, for each month by which the benefit commencement date precedes the month after which the member attains 52.5 years of age by $\frac{1}{4}$ of 1% or age 60.

Members of both groups may qualify for vested deferred allowances, disability allowances and death benefit allowances subject to meeting various eligibility requirements. Benefits are based on AFC or earned compensation and/or service.

C. Contributions

Plan members are required to contribute a percentage of their gross earnings to the pension plan, which the contribution rates are 7% for employees and teachers 11.55% for police and 11.80% for fire. The Town makes annual contributions to the pension plan equal to the amount required by Revised Statutes Annotated 100-A:16, and range from 10.77% to 27.74% of covered compensation. The Town's contributions to NHRS for the year ended June 30, 2015 was \$3,512,182, which was equal to its annual required contribution.

D. <u>Summary of Significant Accounting Policies</u>

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the NHRS and additions to/deductions from NHRS' fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

E. <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and</u> <u>Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2015, the Town reported a liability of \$33,932,627 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2013. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2013, the Town's proportion was 0.940 percent. At June 30, 2014, the Town's proportion was 0.904 percent, which was a decrease of 0.036 from its previous year proportion.

For the year ended June 30, 2015, the Town recognized pension expense of \$2,021,296. In addition, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | | erred Outflows Resources | Deferred Inflows of Resources | |
|---|----|-----------------------------|----------------------------------|---------|
| Fiscal year 2015 pension contributions | \$ | 3,512,182 | \$ | - |
| Net difference between projected and actual earnings on pension plan investments | | - | 4, | 341,709 |
| Changes in proportion | _ | - | 1, | 287,306 |
| Total | \$ | 3,512,182 | \$ <u>5</u> , | 629,015 |

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year end | led June 30: | | |
|----------|--------------|-----|-------------|
| 2016 | | \$ | 2,104,928 |
| 2017 | | | (1,407,254) |
| 2018 | | | (1,407,254) |
| 2019 | | _ | (1,407,253) |
| | Total | \$_ | (2,116,833) |

<u>Actuarial assumptions</u>: The total pension liability in the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 3.0 percent per year |
|---------------------------|---|
| Salary increases | 3.75 - 5.8 percent average, including inflation |
| Investment rate of return | 7.75 percent, net of pension plan investment expense, including inflation |

Mortality rates were based on the RP-2000 mortality table, projected to 2020 with Scale AA. The table includes a margin of 15% for men and 17% for woman for mortality improvements.

The actuarial assumptions used in the June 30, 2013 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2005 – June 30, 2010.

The long-term expected rate of return on pension plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major class are summarized in the following table:

| Asset Class | Target Allocation Percentage | Weighted Average Average Long- Term Expected Real Rate of Return |
|--|---|--|
| Large Cap Equities Small/Mid Cap Equities | 22.50 % 7.50 | 3.25% 3.25% |
| Total domestic equities | 30.00 | |
| Int'l Equities (unhedged) Emerging Int'l Equities | 13.00 7.00 | 4.25% 6.50% |
| Total international equities | 20.00 | |
| Core Bonds High-Yield Bonds Global Bonds (unhedged) Emerging Market Debt (external) Total fixed income | 18.00 1.50 5.00 <u>0.50</u> 25.00 | -0.47% 1.50% -1.75% 2.00% |
| Private equity Private debt Real estate Opportunistic | 5.00 5.00 10.00 5.00 | 5.75% 5.00% 3.25% 2.50% |
| Total alternative investments | 25.00 | |
| Total | 100.00 % | |

<u>Discount Rate</u>: The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer service cost contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the pension plan's actuarial funding policy and as required by RSA 100-A:16. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

<u>Sensitivity of the proportionate share of the net pension liability to changes in the discount rate</u>: The following presents the Town's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.75%) or 1 percentage-point higher (8.75%) than the current rate:

| | 1% | Current | |
|-------------------|---------------|---------------|---------------|
| | Decrease | Discount Rate | 1% Increase |
| Fiscal Year Ended | (6.75%) | (7.75%) | (8.75%) |
| June 30, 2014 | \$ 44,694,792 | \$ 33,932,627 | \$ 24,853,131 |

<u>Pension plan fiduciary net position</u>: Detailed information about the pension plan's fiduciary net position is available in the separately issued NHRS financial report.

20. <u>Risk Management</u>

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance. There were no significant reductions in insurance coverage from the previous year and have been no material settlements in excess of coverage in any of the past three fiscal years.

21. Beginning Net Position Restatement and Fund Balance Reclassification

Change in Accounting Principle

In fiscal year 2015, the Town's beginning net position as of July 1, 2014 was restated for the implementation of the new standard – Governmental Accounting Standards Board (GASB) Statement 68, *Accounting and Financial Reporting for Pensions,* as amended by GASB Statement 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date.* Accordingly, the following reconciliation for the net position is provided:

Government-Wide Financial Statements:

| | | | _ | Business-Type Activities | | | | 6 |
|--|-----|--------------|-----|--------------------------|-----|-------------|-----|--------------|
| | | Governmental | | Water | | Sewer | | |
| | | Activities | | <u>Fund</u> | | <u>Fund</u> | | <u>Total</u> |
| As previously reported for June 30, 2014 | \$ | 127,465,981 | \$ | 12,720,229 | \$ | 18,440,730 | \$ | 31,160,959 |

| Total net position restatement: | | (36,032,353) | _ | (747,651) | | (796,607) | _ | (1,544,258) |
| As restated for July 1, 2014 | \$_ | 91,433,628 | \$_ | 11,972,578 | \$_ | 17,644,123 | \$_ | 29,616,701 |

Fiscal year 2014 and prior periods have not been restated for GASB 68 due to impractical nature of allocating annual activity and lack of information for measurement dates June 30, 2012 and prior; as this is a new standard and beginning net position restatement for July 1, 2014 does not recognize beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions in accordance with GASB 71.

Reclassification of Fund Balance

In fiscal year 2015, beginning fund balance for General Fund decreased by \$168,292 to reflect the reclassification of the Rockingham Economic Development Corporation activity to a special revenue fund, therefore, nonmajor governmental funds beginning balance increased by that amount.

TOWN OF DERRY, NEW HAMPSHIRE NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2015

MODIFIED APPROACH FOR INFRASTRUCTURE CAPITAL ASSETS

In accordance with GASB Statement No. 34, the Town is required to account for and report infrastructure capital assets. The Town's infrastructure consists of roads, bridges, side-walks, and similar items. The Town has elected to use the "modified approach" for infrastructure reporting on its roadways and sidewalks. Under GASB Statement No. 34, eligible infrastructure capital assets are not required to be depreciated under the following requirements:

- The Town manages the eligible infrastructure capital assets using an asset management system with characteristics of (1) an up-to-date inventory; (2) perform condition assessments and summarize the results using a measurement scale; and (3) estimate annual amounts to maintain and preserve at the established condition assessment level.
- The Town documents that the eligible infrastructure capital assets are being preserved approximately at or above the established and disclosed assessment level.

Condition assessment ratings are being used to determine the level of annual funding required to maintain the value of the roadway systems. The Town uses an engineer developed Pavement Condition Index (PCI) to determine the conditions of its roadways. The analysis includes: inventory information to define the size and characteristics of each roadway; distress information to determine existence, severity and extent of physical problems; and drainage and roadway cross-section characteristics, particularly with respect to deficiencies.

The following conditions were defined and associated to a rating within the asset management system:

| Condition | <u>Rating</u> | Remedial Action |
|------------------|---------------|----------------------------|
| Excellent | 100-80 | Crack Seal or Defer Action |
| Good | 79-68 | Chip Seal or Crack Seal |
| Fair | 67-63 | Shim and Overlay |
| Poor | 62-58 | Reclaim |
| Failed | 57-0 | Reconstruct and Reclaim |

Each road is surveyed and graded on its condition and given a rating. This helps the Town prioritize which roads should be treated and the assessment of what type of treatment is necessary in the development of a long-range repair and maintenance plan.

The last three assessments effective in 2015, 2012, and 2009 reflected a good PCI rating of 79, 75, and 78, respectively.

In fiscal year 2003, the Town council adopted the "good" conditional assessment PCI rating range of 68 to 80 for its roadway maintenance program goal and it also estimated expenditures of \$1,300,000 per year are necessary to sustain the roadways rating level.

The current PCI of 79 is in line with the council's goal of preserving the network in the range between 68 and 80. The currently defined system of roadway and sidewalk networks is not depreciated because the Town's conditional assessment rating falls within its adopted range.

The Town has expended an average of \$1,343,962 annually on roadway maintenance for the past 10 years. Roadway site improvements paid directly by developers and increased utilization of Town staff for roadway engineering and some construction has enabled the Town to sustain or improve its overall PCI rating while managing expenditures efficiently.

Rockingham Road Bridge

Combining Financial Statements

NON-MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for resources obtained and expended for specified purposes and restricted by law or local action.

Special Revenue Funds are established for the following purposes:

- Derry Public Library Fund: This fund is used to account for library revenues and expenditures incurred in the operation of Derry's main library located at 64 East Broadway.
- Taylor Library Fund: This fund is used to account for library revenues and expenditures incurred in the operation of this public library located at 49 East Derry Road.
- <u>Cable Television Fund</u>: This fund is used to account for cable television franchise fees and other related miscellaneous income and expenses associated with Cable Television.
- Conservation Commission Fund: This fund is used to account for revenue and expenses associated with acquiring and preserving conservation land. This fund receives 100% of Land Use Change Tax (current use) revenue and public donations designated for conservation purposes.
- Public Health Fund: This fund is to account for the planning, testing and implementation of regional Public Health plans related to emergency preparedness as well as providing support for local health officers and school nurses. This fund is supported by federal funds passed through the New Hampshire Department of Health and Human Services and the National Association of County and City Health Officials (NACCHO).
- Public Safety Grants Fund: This fund is used to account for grants and donations received and expenses for the purpose of public safety including for the enforcement of underage drinking laws, DWI saturation, seatbelt compliance, off-road vehicle patrols and funding for domestic preparedness planning, training and equipment using federal pass-through funds from Rockingham County for Justice Assistance and New Hampshire Department of Justice, New Hampshire Highway Safety and New Hampshire Fish and Game.
- Miscellaneous Grants Fund: This fund is used to account for various donations or grants received and their related expenditures.
- Waste Tire Reclamation Fund: The Waste Reclamation Trust was established pursuant to NH RSA 31:19A. The Trust was established to retain fees collected from motor vehicle registrations as authorized pursuant to NH RSA Chapter 263 (HB332). The purpose of the reserve is to fund the disposal of motor vehicle waste generated within the Town of Derry and to recycle and reclaim other types of solid waste.

- Transportation Improvement Fund: has been established to collect fees from motor vehicle registrations for the purpose of funding improvements to the Town's roadways.
- Rockingham Economic Development Corporation: This fund is used to account for loan revenue and expenditures associated with economic development for eligible small businesses. This fund is supported by Rockingham Economic Development Corporation who also acts as the Town's agent in administering the loans.

CAPITAL PROJECT FUNDS

Capital Project Funds are established to account for resources obtained and expended for the acquisition of major capital facilities or equipment other than those employed in the delivery of services accounted for in Enterprise Funds.

The current funds were established for the following purposes:

- Adams Memorial Building Fund: This fund is used to account for structural improvements to the roof, ceiling and balcony of the Adams Memorial Building. Any unencumbered or unexpended funds shall lapse to the Public Works Capital Reserve on June 30, 2015.
- Bridge Improvements Fund: This fund is used to account for the construction of bridges on North High Street, Tsienneto Road and Drew Road. The State of New Hampshire reimbursement to the Town is commonly 80% of eligible expenses.
- Route 28 TIF Fund: This fund is used to account for the engineering, construction and land acquisition costs associated with improving the Route 28 roadway within a TIF District formed in FY07. This project is funded by a combination of bond revenue, grant revenue from New Hampshire Department of Transportation, and contributions from the general fund and a commercial retailer.
- Transfer Station Facility Fund: This fund is used to account for capital improvements to the Transfer Station Facility.
- Rockingham Road Reconstruction Fund: This fund is used to account for reconstruction costs of Rockingham Road, bridge, and drainage improvements.

PERMANENT FUNDS

Permanent Funds are established to account for certain assets held by the Town in a fiduciary capacity as trustee. The following is a description of Town Permanent Funds:

- Seneral Cemetery Care: to account for the East Derry Cemetery and perpetual care.
- Parks and Playgrounds: to account for the MacGregor Pioneer Park upkeep and operations and improvements to Alexander Carr Park.
- Libraries: to account for the Taylor Library's general expenses and Derry Public Library's book, art and musical recordings.
- > Highways and Streets: to account for street repair.
- > <u>Human Services</u>: to benefit the poor of Derry with emphasis on clothing.

PRIVATE PURPOSE FUNDS

Private purpose trust funds are used to account for assets held by the Town of Derry, New Hampshire in trust for individuals, private organizations or other governmental units. These funds have been established for the provisions of the Derry Public Schools, Derry Visiting Nurse Association, Inc., East Derry Improvements, and Memorial Day Flowers.

| Trust Name | Trust Purpose |
|--|--|
| Derry Public Schools | Support public schools in Derry |
| Derry Visiting Nurse Association, Inc. | To care and treat elderly women and men who are 55 or more and reside in the Towns of Derry, Windham, or Londonderry |
| East Derry Improvements Society | East Derry Improvements |
| Memorial Day Flowers | To place flowers each Memorial Day upon Helen Noyes' lot in Forest Hills |

FIDUCIARY FUNDS

AGENCY FUNDS

Agency Funds are established to account for fiduciary assets held by the Town in a custodial capacity as an agent on behalf of others.

- Derry Cooperative School Agency Funds are funds held by the Town of Derry, New Hampshire's Trustees of Trust Funds on behalf of the Derry Cooperative School District, an independent governmental unit. New Hampshire state law requires that these funds be held by the Trustees of Trust Funds in the Town that the school district operates.
- 2. Performance Bond Agency Funds are escrow funds held by the Town of Derry, New Hampshire to ensure that improvements affecting public infrastructure are completed in accordance with approved plans.

Sources: DerryMS-1 Report of Assessed Values filed with the NH Department of Revenue Administration (DRA) and DRA's Annual Equalization Survey.

Notes:

(1) Unable to breakout Commercial and Industrial assessed value for Fiscal Years 2005 & 2006. The total for Commercial and Industrial is shown under Commercial for those years. Beginning in FY 2007, the Town shows Commercial and Industrial separately.

(2) Since 2003, the NH Department of Revenue Administration requires that all properties be reviewed at least every five years to insure that assessed property values are within a range of 90-110% of actual market value. The Town completed a revaluation in 2006 for FY07. The Town's goal is to maintain values as close to 100% through an annual process of cycled inspections and a valuation update every other year. A partial valuation update was done in 2008 for FY09, with the most recent full valuation update being done in 2012 for FY13.

TOWN OF DERRY, NEW HAMPSHIRE DIRECT AND OVERLAPPING PROPERTY TAX RATES LAST TEN FISCAL YEARS

(rate per \$1,000 of assessed value)

| | | | Total Overlapping Rates | | | | | | | |

Source: NH Department of Revenue Administration approved tax rates

Notes:

(1) The Town Services portion of the tax rate is subject to a "tax cap" provision tied to the increase in the National Consumer Price Index (CPI-U) as published by the US Department of Labor, excluding any valuation change as a result of a revaluation of property.

(2) The Total Tax Rate is billed to all taxable property owners, with the one exception being that Utilities do not pay the "State Education Tax" portion of the Total Tax Rate.

| 2015 | | 6,520,000 | | 4,840,000 | 11,360,000 | 0.48% | | 344 |

Notes:

Details regarding the Town's outstanding debt can be found in the notes to the financial statements.

Property value data from Form MS-1 filed with the NH Department of Revenue Administration for the prior tax year.

See page 128 for population data. These ratios are calculated using estimated population for the prior calendar year.

TOWN OF DERRY, NEW HAMPSHIRE DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF JUNE 30, 2015

| Governmental Unit | Debt Outstanding | Percentage Applicable | Share of Direct & Overlapping Debt |
|-----------------------------------|---------------------|--------------------------|---------------------------------------|
| Direct: | | | |
| Town of Derry - Bonds | \$11,360,000 | 100.00% | \$11,360,000 |
| Town of Derry - Capital Leases | 509,885 | 100.00% | 509,885 |
| Sub Total - Direct Debt | | | \$11,869,885 |
| Overlapping: | | | |
| Rockingham County | 7,185,000 | 6.4055% | 460,235 |
| Derry Cooperative School District | 14,249,275 | 100.00% | 14,249,275 |
| Sub Total - Overlapping Debt | | | 14,709,510 |
| Total Direct and Overlapping Debt | | | \$26,579,395 |

Sources: Debt outstanding data is provided by each governmental unit and the percentage applicable to the Town of Derry for Rockingham County, based on 2015 town allocation, is provided by the County

Notes: Overlapping governments are those that coincide, at least in part with the geographic boundaries of a municipality. This schedule sets forth the Town of Derry's share of those overlapping governments that are born by its taxpayers through a portion of the approved tax rate. Since the Derry Cooperative School District is strictly confined to the Town of Derry, 100% of its outstanding debt is overlapping and applicable to the governmental unit.

| Total debt applicable to limit as a percentage of debt limit | 0.42% | 0.35% | 0.28% | 0.22% | 0.17% | 0.16% | 1.02% | 1.03% | 0.91% | 0.82% |

Notes:

Per New Hampshire Revised Statutes Annotated, the Town's general obligation debt and water district debt should not exceed 3% (RSA 33:4-a.III) and 10% (RSA 33:5-a),

respectively, of equalized valuation as set forth in RSA 33:4-b and as determined by the NH Department of Revenue Administration.

There is no state debt margin for wastewater outstanding debt, because all wastewater bonds are guaranteed by the State of New Hampshire.

There is no state debt margin for Landfill Site Closure outstanding debt.

Per New Hampshire Revised Statutes annotated (RSA 162-K:8), Tax Increment Financing (TIF) District bonds shall not be included when computing the municipality's net debt.

Source: Population and personal income information is provided by the New Hampshire Office of Energy & Planning. School enrollment information is provided by the Derry Cooperative School District. Unemployment information is derived from the Local Area Unemployment Statistics Report prepared by the NH Employment Security (NHES), Economic And Labor Market Information Bureau.

Notes:

Population and personal income are based on information from the prior calendar year. School population is based on the 2013-2014 school year, while the unemployment rate is the unemployment rate for the last month of the fiscal year.

Updated Per Capita Personal Income for the Town had not been available from the New Hampshire Office of Energy & Planning (NHOEP), though available in FY2011 due to the 2010 census and going forward based on an update from NHES. Prior to 2010, this information is derived from the census data done every 10 years.
