Purpose of Amendment – to clarify the list of permitted use in the zone. Medical Office was a permitted use under the definition of “Professional Office” until the definition of Medical Office was created in 2013. The use in GC II is predominantly Medical Office and therefore the majority of the uses in the zone are currently pre-existing, non conforming. This change would bring those lots and uses (which have been in existence or approved prior to 2013) in compliance. It is interpreted that Health Service Facility includes Ambulatory Surgical Centers.
