

PUBLIC NOTICE

TOWN OF DERRY

Mosquito Control

The Mosquito Control program begins the week of April 5, 2021 in the Town of Derry. Crews from Dragon Mosquito Control, Inc. will be checking swamps, marshes, woodland pools, ditches, storm drains and other shallow, stagnant water for mosquito larvae. When mosquitoes are found, the following insecticides may be used:

Altosid (methoprene 5%)

VectoBac (Bacillus thuringiensis israelensis 2.8%)

Natular (spinosad 2.5%)

Fourstar MBG (Bacillus thuringiensis israelensis 3.0% & Bacillus sphaericus 3.0%)

VectoMax FG (Bacillus thuringiensis israelensis 4.5% & Bacillus sphaericus 2.7%)

VectoPrime FG (Bacillus thuringiensis israelensis 6.07% & methoprene 0.10 %)

CocoBear MLO (mineral oil 10.0%)

BVA 2 Mosquito Larvicide Oil (mineral oil 97.0%)

If Eastern Equine Encephalitis, Jamestown Canyon Virus or West Nile Virus becomes a public health threat, limited spot spraying may be conducted at East Derry School, Derry Village School, West Running Brook School, Pinkerton Academy, South Range School, Barka School, Grinnell School, Hood School, Hood Park, Ryder Field, Don Ball Park, MacGregor Park, Veterans Field, O'Hara Field, Alexander-Carr Park, Calvary Bible Church, Saint Thomas Aquinas School, Boys & Girls Club of Greater Derry, and Pinkerton Practice Field. It isn't possible to predict if emergency spraying will be necessary. The decision to spray is made in consultation with town officials and is based upon mosquito surveillance data, disease test results and weather conditions. Additional notification will be given in the unlikely event emergency spraying is scheduled.

Residents who do not want their wetlands treated may use our No-Spray Registry online at www.dragonmosquito.com/no-spray-registry or write to Dragon Mosquito Control, Inc., P.O. Box 46, Stratham, NH 03885. Be sure to include your name, physical address, phone number, color of your house and acreage. Residents may call 734-4144 or email help@dragonmosquito.com for further information regarding dates, times, locations, insecticides, precautions, and other concerns.
