Dear Planning Board Members:

PLANNING DEPARTMENT

This letter is to inform the Town of Derry that Eversource is trimming and removing trees and brush adjacent to and beneath some of its power lines within the town. This work is necessary to insure the safe distribution of power and to improve reliability of electric service for our customers.

According to Eversource records, English Range Road and Stark Road have been designated as scenic roads by the Town. Please consider this letter to be a request from Eversource for a public hearing for the purpose of the trimming and removal of trees on these and any other scenic roads within the proposed work area pursuant to RSA 231:158. Please inform this office of the date, time, and place of said meeting so that we may have a representative present.

Eversource specifications call for removal of brush and limbs less than four inches in diameter which are located within eight feet to the side of, ten feet below or fifteen feet above conductors. Larger trees or limbs which present a threat to Eversource lines or other equipment because of decay or other defect will be removed on a case by case basis. All work will be performed in accordance with accepted arboricultural standards.

Eversource has contracted with Asplundh Tree Expert Company to perform the actual trimming of trees. Eversource requires that our trimming contractors contact each landowner where trees are to be trimmed prior to commencement of work on that property. Individual concerns will be addressed at this time.

Work on those roads not designated as scenic has already begun. The work is expected to take the remainder of the year to complete.
