To:

Horne Brook Sewer Interceptor Easement Abutters (See Attached Map)

From:

Jan Wrona, Utility Asset Coordinator.

Subject:

Horne Brook Sewer Interceptor Inspection

Dear Resident,

This notice is to inform residents that the Town of Derry has contracted with Eastern Pipe Service to inspect the existing sewer utility line in the area of your property. This work requires sewer bypass pumping and access to our sewer mains and manholes on private properties through existing easements. This work is necessary to ensure pipelines and manholes are structurally sound and functioning properly. It is important for property owners to be aware that permanent structures are not allowed to be constructed within the easement and the Town cannot be responsible for any damage to special plantings within the easement area.

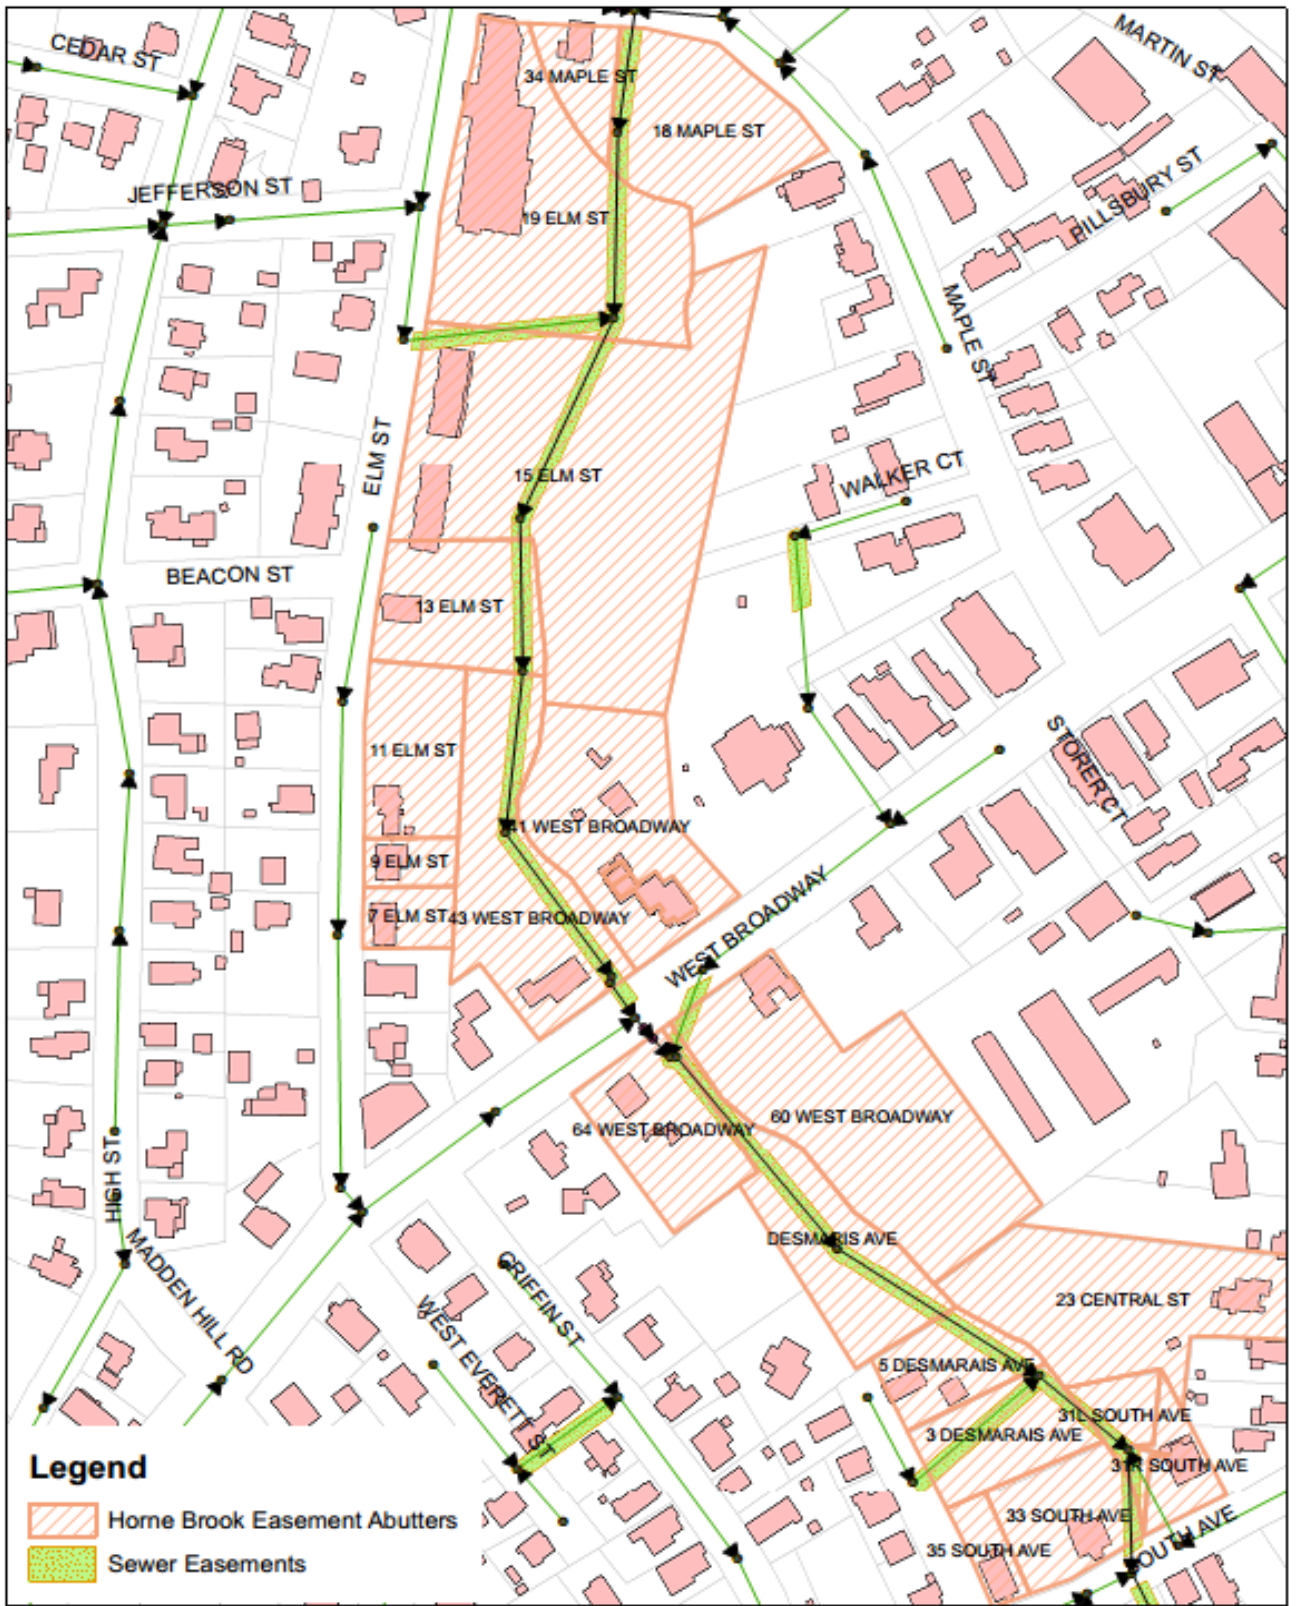

This work is scheduled for September 10th & 11th 2018.

If you have any questions or concerns regarding this work, please feel free to contact me.

Sincerely,

Jan Wrona
Utility Assets Coordinator
