# CONSTRUCTION NOTICE

**TO:** Residents of: **Highland Avenue**  
**FROM:** Clint Havens, Engineering Technician  
**DATE:** August 24, 2022  
**SUBJECT:** Water Main Replacement and Road Construction

This notice is to inform residents, the Town of Derry is planning to replace the existing water main on Highland Ave from South Ave to Pinehurst Ave. This work will be performed by American Excavating Corp. They will be mobilizing material and equipment next week and shall be accessing individual properties to connect a temporary water system, which will be used throughout the project. They will need access to review sill cocks and existing plumbing configurations to evaluate if any plumbing modifications shall be required for connection to the temporary water system. Any temporary plumbing changes shall be at the Town Contractor's expense.

This project will include the permanent removal of the sidewalk along the westerly side (odd numbered houses) along Highland Ave.

This project may impose a minor delay upon entering and exiting the roadway and individual properties, but the road will not be closed to residents. **On street parking will not be allowed during construction activity which is typically 7:00 a.m. to 4:00 p.m Monday through Friday.**

The Department of Public Works will make an effort to minimize any inconvenience to residents.

If you have any questions or concerns, please contact the Public Works Office at (603)432-6144.

Thank you for your cooperation during this project.
