Excess Aggregate Removal (Derry Transfer Station) (B15-102)

American Excavating Corp. (AEC) hereby submits a bid to remove the excess stockpiled ledge from Transfer Lane site . AEC will pay the Town of Derry one cent per cubic yard for material removed from site. It is AEC's intent to crush/process material on site and remove it from site. AEC will crush/process as much material as needed to supply its projects. AEC makes no claim that all material will be removed from site. AEC understands that all material will be removed by December 15, 2014. A certificate of insurance will be issued to the town if this proposal is accepted.

Sincerely,

A handwritten signature in blue ink that reads "Thomas Lannan" with "President" written underneath it.

Thomas Lannan, President

Re: RFP (B15-102) Removal of Excess Aggregate from Derry Transfer Station

Remi-Sons, Inc. is pleased to offer the following Proposal for removal of material for the above mentioned Project. If you have any questions or concerns, please give us a call.

ITEM	SUPPLY/SERVICE		
1	SITEWORK		
	Supply equipment and labor for the removal of aggregate from the large stockpile located at Transfer Lane in Derry.		
	To Include:		
	Equipment and labor to load (screened or crushed optional) upto 50,000cy of soil and rock stockpiled at the transfer station and transport off site.		
	Remi-sons has the option of screening and/or crushing the material on site and any undesirable materials like bituminous pavement, concrete, solid waste may be left on site. All material to be removed by December 15, 2014.		
	Remi-sons proposes to remove the material at a "per CY" cost of <u>\$ 5.95/cy</u>		
	Total estimated cost = 50,000 cy x \$5.95/cy =	\$	297,500.00

\$ 297,500.00**NOTE:** Any solid waste to remain on site

Quote assumes existing material suitable for reuse and is not hazardous
